GOVERNOR DOUGLAS A. DUCEY

STATE OF ARIZONA
★
EXECUTIVE ORDER

Executive Order 2017-06
Adoption of Revised 2018 Arizona Emergency Response and Recovery Plan
(Rescinding Executive Order 2013-07)

WHEREAS, A.R.S. §§ 26-301 through 26-319 outline certain responsibilities and authorities for disaster preparedness, response, recovery and mitigation; and

WHEREAS, in accordance with A.R.S. § 26-305, there is established in the Department of Emergency and Military Affairs (DEMA), the Division of Emergency Management, which is administered by the Department under the authority of the Adjutant General, subject to powers vested in the Governor as provided by law; and

WHEREAS, in accordance with the responsibilities outlined in A.R.S. § 26-306, the Director of the Arizona Division of Emergency Management has reviewed the 2013 emergency operations plan and has recommended that a revised 2018 State of Arizona Emergency Response and Recovery Plan (the “2018 Plan”) be adopted by the Governor, and

WHEREAS, State agencies play a vital role in emergency and disaster preparedness, response, recovery, and mitigation activities; and

WHEREAS, significant organizational and procedural changes have occurred in numerous federal, state, and local governments to prevent and prepare for potential domestic or international acts of terrorism within Arizona.

NOW, THEREFORE, I, Douglas A. Ducey, Governor of the State of Arizona, by virtue of the authority vested in me by the Constitution and laws of the State of Arizona, do hereby order the adoption of and adherence to the 2018 Plan, and direct the following:

1. The Adjutant General, or his delegated representative, shall update the 2018 Plan periodically and test the quality of the 2018 Plan through exercises.
 - The 2018 Plan shall be implemented upon the activation of the State of Arizona Emergency Operations Center.
 - The 2018 Plan shall prescribe the rules and regulations for emergency and disaster operations anywhere in the State of Arizona.
 - Each State agency shall prepare procedures to implement the various emergency functions in the 2018 Plan.
 - Each State agency shall participate in an annual review to, as necessary, update the 2018 Plan and agency procedures.
2. Pursuant to A.R.S. § 26-302, the Adjutant General is authorized to activate and deactivate the State of Arizona Emergency Operations Center and to exercise overall direction and control of state emergency or disaster operations. The Adjutant General may further delegate the authority in this paragraph, in whole or in part, to an appropriate individual or individuals within DEMA.
 - a. The Adjutant General or his delegated representative shall maintain at all times the necessary materials, including contact lists for all possible responders in the State Emergency Operations

- Center to effectively respond to statewide emergency and disaster situations, including terrorist incidents.
- b. The Adjutant General or his delegated representative shall keep records of each disaster response as it occurs, tracking missions assigned and completed, for use during the response effort and review afterward.
 - c. The Adjutant General or his delegated representative shall formally critique the response coordination efforts and produce after-action reports that identify areas needing improvement during a response effort.
 - d. The Adjutant General or his delegated representative shall direct the activation, employment, direction and control of the Arizona National Guard's Weapons of Mass Destruction Civil Support Team (WMD-CST).
3. Each State agency shall appoint an emergency coordinator and an alternate to act on behalf of the agency during an emergency or disaster, and shall furnish the name and contact telephone numbers to the Director of the Arizona Division of Emergency Management. Each State agency also shall:
 - a. Staff the Arizona Emergency Operations Center with personnel during training exercises relevant to the agency and during emergencies and disasters as requested by the Director of the Arizona Division of Emergency Management.
 - b. Maintain and operate a 24-hour response capability when the 2018 Plan is activated.
 - c. Maintain logs, records, and reporting systems required by state and federal disaster assistance laws, rules and regulations.
 4. All State agencies not assigned a primary or secondary role in the 2018 Plan shall carry out whatever duties or services may be specified or directed by the Governor.
 5. The 2018 Plan supersedes the State of Arizona Emergency Response and Recovery Plan dated December 2013, and any subsequent revisions, which shall be destroyed.
 6. Executive Order 2013-07 (September 11, 2013) is hereby rescinded and replaced.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Arizona.

Douglas G. Ducey
GOVERNOR

DONE at the Capitol in Phoenix on this Twenty-Fifth day of October in the Year Two Thousand and Seventeen, and of the Independence of the United States of America the Two Hundred and Forty-Second.

ATTEST:

Michele Reagan
SECRETARY OF STATE

ARIZONA STATE EMERGENCY RESPONSE AND RECOVERY PLAN PRIMARY AGENCY PROMULGATION

ARIZONA DEPARTMENT OF AGRICULTURE

The Arizona State Emergency Response and Recovery Plan (SERRP) is an all-hazards plan that identifies state agency **roles and responsibilities** during an emergency or disaster. The SERRP does not include procedures. Operational level details are left to the appropriate agency procedure documents. The plan supports the Arizona Department of Emergency and Military Affairs (DEMA) mission to provide military and emergency management capabilities to the citizens of Arizona and the nation. The SERRP establishes the concept of operations for response and recovery as it applies to state agencies and partnering entities for incidents that reach a level that overwhelms local, county, or tribal resources, or is determined by the Governor to constitute a state of emergency.

The SERRP is consistent with all applicable state and federal guidance and authorities. This includes utilizing the National Incident Management System (NIMS) and the Incident Command System (ICS) as a basis for the structure. The Governor's Executive Order 2017-06 adopts the SERRP and establishes roles and responsibilities of state agencies for emergency response and recovery. The SERRP is also consistent with the 2016 Emergency Management Standard established by the Emergency Management Accreditation Program (EMAP).

In the State of Arizona, Whole Community partners are engaged in all aspects of the all-hazards emergency management structure. The Arizona Emergency Management Program is specifically defined in coordination with and through guidance found in the SERRP and the EMAP standards. The SERRP Primary Agencies, which make up the Arizona Emergency Management Program, are responsible for the management and coordination of the state prevention, mitigation, preparedness, response, and recovery activities for all hazards.

Those Primary Agencies are state agencies identified in the SERRP as responsible for coordination of Emergency Support Functions (ESFs) and Recovery Support Functions (RSFs). Primary Agencies are selected based on the authorities, resources, and capabilities necessary to support the respective functional area(s). The Arizona Department of Agriculture (AZDA) is the Primary Agency for ESF 11 – Agriculture and Natural Resources. By acknowledging their role as a Primary Agency in the SERRP, AZDA commits to the following:

- Appoint an emergency coordinator and an alternate to act on behalf of the agency during an emergency or disaster, and shall furnish the name and contact telephone numbers to the DEMA-EM Director.
- Develop and maintain procedures to support accomplishing the roles and responsibilities assigned in the SERRP.
- Coordinate and participate in necessary plan maintenance and testing, training, and exercising of the SERRP, the suite of supplementary documents, and ESF/RSF plans and procedures to validate response and recovery capabilities.

- Coordinate maintenance and implementation of respective ESFs/RSFs with applicable Support Agencies, Private Sector Partners, and non-governmental organizations.
- Staff the State Emergency Operations Center (SEOC) with personnel during training exercises relevant to the agency and during emergencies and disasters as requested by the DEMA-EM Director.
- Maintain and operate a 24-hour response capability when the plan is activated.
- Maintain logs, records, and reporting systems required by state and federal disaster assistance laws, rules, and regulations.
- Develop and maintain a Continuity of Operations plan in accordance with the Governor's Executive Order 2013-06 Continuity of Operations and Continuity of Government Planning, and the EMAP standards.

The undersigned Director of AZDA, designated as a Primary Agency, has reviewed and approved the SERRP and commits to the responsibilities as listed above and ongoing engagement, review, and maintenance of this and all future versions of the plan.

Director Mark Killian
Arizona Department of Agriculture

**ARIZONA STATE EMERGENCY RESPONSE AND
RECOVERY PLAN PRIMARY AGENCY
PROMULGATION**

**ARIZONA DEPARTMENT OF EMERGENCY
AND MILITARY AFFAIRS**

The Arizona State Emergency Response and Recovery Plan (SERRP) is an all-hazards plan that identifies state agency **roles and responsibilities** during an emergency or disaster. The SERRP does not include procedures. Operational level details are left to the appropriate agency procedure documents. The plan supports the Arizona Department of Emergency and Military Affairs (DEMA) mission to provide military and emergency management capabilities to the citizens of Arizona and the nation. The SERRP establishes the concept of operations for response and recovery as it applies to state agencies and partnering entities for incidents that reach a level that overwhelms local, county, or tribal resources, or is determined by the Governor to constitute a state of emergency.

The SERRP is consistent with all applicable state and federal guidance and authorities. This includes utilizing the National Incident Management System (NIMS) and the Incident Command System (ICS) as a basis for the structure. The Governor's Executive Order 2017-06 adopts the SERRP and establishes roles and responsibilities of state agencies for emergency response and recovery. The SERRP is also consistent with the 2016 Emergency Management Standard established by the Emergency Management Accreditation Program (EMAP).

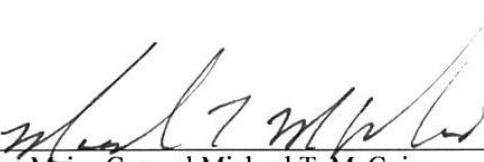

In the State of Arizona, Whole Community partners are engaged in all aspects of the all-hazards emergency management structure. The Arizona Emergency Management Program is specifically defined in coordination with and through guidance found in the SERRP and the EMAP standards. The SERRP Primary Agencies, which make up the Arizona Emergency Management Program, are responsible for the management and coordination of the state prevention, mitigation, preparedness, response, and recovery activities for all hazards.

Those Primary Agencies are state agencies identified in the SERRP as responsible for coordination of Emergency Support Functions (ESFs) and Recovery Support Functions (RSFs). Primary Agencies are selected based on the authorities, resources, and capabilities necessary to support the respective functional area(s). DEMA is the Primary Agency for ESF 2 – Communications, ESF – 5 Emergency Management, ESF 6 – Mass Care, ESF 7 – Logistics, ESF 9 – Search and Rescue, ESF 12 – Energy, ESF 14 – Recovery, ESF 15 – Public Information, RSF 1 – Community Planning and Capacity Building, and RSF 2 – Economic. By acknowledging their role as a Primary Agency in the SERRP, DEMA commits to the following:

- Appoint an emergency coordinator and an alternate to act on behalf of the agency during an emergency or disaster, and shall furnish the name and contact telephone numbers to the DEMA-EM Director.
- Develop and maintain procedures to support accomplishing the roles and responsibilities assigned in the SERRP.

- Coordinate and participate in necessary plan maintenance and testing, training, and exercising of the SERRP, the suite of supplementary documents, and ESF/RSF plans and procedures to validate response and recovery capabilities.
- Coordinate maintenance and implementation of respective ESFs/RSFs with applicable Support Agencies, Private Sector Partners, and non-governmental organizations.
- Staff the State Emergency Operations Center (SEOC) with personnel during training exercises relevant to the agency and during emergencies and disasters as requested by the DEMA-EM Director.
- Maintain and operate a 24-hour response capability when the plan is activated.
- Maintain logs, records, and reporting systems required by state and federal disaster assistance laws, rules, and regulations.
- Develop and maintain a Continuity of Operations plan in accordance with the Governor's Executive Order 2013-06 Continuity of Operations and Continuity of Government Planning, and the EMAP standards.

The undersigned Director of DEMA, designated as a Primary Agency, has reviewed and approved the SERRP and commits to the responsibilities as listed above and ongoing engagement, review, and maintenance of this and all future versions of the plan.

By acknowledging their role as a Primary Agency in the SERRP, ADOT commits to the following:

- Appoint an emergency coordinator and an alternate to act on behalf of the agency during an emergency or disaster, and shall furnish the name and contact telephone numbers to the DEMA-EM Director.
- Develop and maintain procedures to support accomplishing the roles and responsibilities assigned in the SERRP.
- Coordinate and participate in necessary plan maintenance and testing, training, and exercising of the SERRP, the suite of supplementary documents, and ESF/RSF plans and procedures to validate response and recovery capabilities.

- Coordinate maintenance and implementation of respective ESFs/RSFs with applicable Support Agencies, Private Sector Partners, and non-governmental organizations.
- Staff the State Emergency Operations Center (SEOC) with personnel during training exercises relevant to the agency and during emergencies and disasters as requested by the DEMA-EM Director.
- Maintain and operate a 24-hour response capability when the plan is activated.
- Maintain logs, records, and reporting systems required by state and federal disaster assistance laws, rules, and regulations.
- Develop and maintain a Continuity of Operations plan in accordance with the Governor's Executive Order 2013-06 Continuity of Operations and Continuity of Government Planning, and the EMAP standards.

The undersigned Director of ADOT, designated as a Primary Agency, has reviewed and approved the SERRP and commits to the responsibilities as listed above and ongoing engagement, review, and maintenance of this and all future versions of the plan.

Director John S. Halikowski
Arizona Department of Transportation

January 16, 2018

Date

Please return this signed promulgation document to Ashleigh Makuch at ashleigh.makuch@azdema.gov.

DEMA-EM maintains the SERRP as a living document intended to be continuously reviewed and revised, with input from all stakeholders, to guarantee the most current plan possible.

PLAN REVIEW, EVALUATION, AND CHANGES			
Date	Summary of Activity	Plan Section	Recommendation By Entry Made By
2/2/2018	Added Primary Agency Promulgation pages.	Introductory materials	A. Makuch, DEMA
2/2/2018	Changed AZ Radiation Regulatory Agency (ARRA) to AZ Department of Health Services (ADHS), Bureau of Radiation Control (BRC).	All	A. Makuch, DEMA
1/19/2018	Updated to reflect discontinuation of the AZ State Emergency Communications Plan.	Communications; ESF 2	M. Hoaglin, DEMA A. Makuch, DEMA
1/19/2018	Updated to reflect discontinuation of the DEMA Resource Management and Logistics Plan.	Logistics	L. Wise, DEMA A. Makuch, DEMA
1/19/2018	Updated SEOC activation language.	SEOC Activation and Coordination	DEMA Leadership A. Makuch, DEMA
1/19/2018	Added EMAP Program definition.	Introduction	A. Makuch, DEMA
11/8/2017	Updated new Executive Order 2017-06 Adoption of Revised 2018 Plan (Rescinding EO 2013-07).	Introductory materials	A. Makuch, DEMA
8/10/2017	Complete revision including format and material.	All	A. Makuch, DEMA
3/8/2017	Corrected American Red Cross Acronym, page ESF 6-4, from AMR to ARC.	ESF 6	M. Gonzalez, DEMA
2/21/2017	Shortened length of bullet explanation	ESF 7, DEMA Actions, Bullet #3	D. Quihuis, DEMA M. Gonzalez, DEMA
2/15/2017	Inserted Matrices for Support and Incident Annexes.	Base Plan	M. Gonzalez, DEMA
2/15/2017	Corrected order of two Appendices, PVNGS is first, then RDD	Base Plan, page 8 and 9	M. Gonzalez, DEMA
2/6/2017	Updated ADWR Roles & Responsibilities.	ESF 7, RSFs 4 & 5, Base Plan ESF Matrices	Mike Ball, ADWR M. Gonzalez, DEMA
1/23/2017	Updated agency names according to recent changes for Forestry & Fire Management and Weights & Measures.	All	M. Gonzalez, DEMA
1/23/2017	Added AZNG as a Support Agency.	ESF 10	Major M. Spencer, AZNG M. Gonzalez, DEMA
1/23/2017	Updated Authorities and References. Updated Purpose statement.	Base Plan ESF 15	M. Gonzalez, DEMA

PLAN REVIEW, EVALUATION, AND CHANGES			
Date	Summary of Activity	Plan Section	Recommendation By Entry Made By
12/15/2016	Inserted State EOC Org Chart.	Base Plan Response Facility Organization	M. Gonzalez, DEMA
12/8/2016	Changed Primary Agency assignment to ADEQ and DPS to a support role.	ESF 10	ADEQ/DPS/DEMA M. Gonzalez, DEMA
12/8/2016	Added note explaining ESF 15 Primary Agency DEMA as interim until appropriate lead agency assumes duties. Revised the Public Affairs description.	Base Plan: ESF Agency Matrix, Information Collection, Analysis, and Dissemination	J. Kioski, DEMA S. Austin, DEMA
12/8/2016	Revised bulleted summary description of ESF 15.	Base Plan ESFs and Scope ESF 15	J. Kioski, DEMA S. Austin, DEMA
11/23/2016	Added Private Sector Matrixes and agencies to appropriate ESFs and RSFs.	Primary and Support Agencies and Partners	W. Hensiak, DEMA S. Austin, DEMA
8/31/2016	Two-week review period closed. Minor changes to individual agency responsibilities (AZDA and ADES).	All	DEMA
8/15/2016	Complete revision including format and material. Material revisions were based on feedback from Primary Agencies.	All	S. Austin, DEMA

DEMA-EM is committed to ongoing training, exercise, and engagement of the SERRP, including the suite of supplementary documents and ESF/RSF plans and procedures, to validate capabilities of the state emergency management enterprise.

TRAINING, EXERCISE, AND ENGAGEMENT ACTIVITY			
Date	Summary of Activity	Partners Involved	Entry Made By
10/3/2017	Delivered training on SERRP re-release at DEMA Training Tuesday.	DEMA Personnel	A. Makuch, DEMA
6/27/2017	Presented SERRP overview at Mobile Training Team Presentation for Pinal County.	DEMA, Pinal County Personnel	A. Makuch, DEMA
6/20/2017	Presented SERRP overview at Mobile Training Team Presentation for Yuma County.	DEMA, Yuma County Personnel	A. Makuch, DEMA
6/15/2017	Presented SERRP overview at Mobile Training Team Presentation for Mohave County.	DEMA, Mohave County Personnel	A. Makuch, DEMA
1/17/2017	Presented SERRP overview at JOC Training Course for AZNG.	AZNG, DEMA	M. Gonzalez, DEMA
10/8/2016	Introduced the 2016 SERRP and delivered training/education session to DEMA personnel in the SEOC.	DEMA Personnel	M. Gonzalez, DEMA

The State of Arizona emergency management enterprise follows the 2016 EMAP Standard to ensure a quality program. Arizona was first accredited in 2004, and was reaccredited in 2009 and 2015.

EMERGENCY MANAGEMENT ACCREDITATION PROGRAM (EMAP)				
EMAP Standard	Standard Component	Plan Section	Page Number	
4.4	Operational Planning and Procedures			
4.4.2	The Emergency Operations, Recovery, Continuity of Operations and Continuity of Government Plans address the following:			
	(1) purpose and scope or goals and objectives	Purpose, Scope, Situation Overview, and Assumptions	BP-1	
	(2) authority	Authorities and References	BP-29	
	(3) situation and assumptions	Purpose, Scope, Situation Overview, and Assumptions	BP-2

INTRODUCTION

The Arizona State Emergency Response and Recovery Plan (SERRP) is an **all-hazards** plan addressing Arizona's hazard and threat environment, including natural, technological, and human-caused emergencies or disasters. The SERRP is written to support the Arizona Department of Emergency and Military Affairs, Emergency Management (DEMA-EM) mission to provide emergency management capabilities to the citizens of Arizona and the Nation.

The plan is designed as a high tier **Whole Community** document identifying state agency **roles and responsibilities** during an emergency or disaster. The SERRP does not include procedures. Operational level details are left to the appropriate agency procedure documents. The SERRP references the State of Arizona emergency management enterprise as the collaboration of all state agencies and departments that have missions or capabilities in support of emergency response and recovery operations.

The SERRP integrates, supports, and is consistent with all applicable federal and state guidance, as listed in the Authorities and References section, and utilizes the National Incident Management System (NIMS) and the Incident Command System (ICS) as a basis for the structure. The SERRP is also consistent with the 2016 Emergency Management Standard established by the Emergency Management Accreditation Program (EMAP).

In the State of Arizona, Whole Community partners are engaged in all aspects of the all-hazards emergency management structure. The Arizona Emergency Management Program is specifically defined in coordination with and through guidance found in the SERRP and the EMAP standards. The SERRP Primary Agencies, which make up the Arizona Emergency Management Program, are responsible for the management and coordination of the state prevention, mitigation, preparedness, response, and recovery activities for all hazards.

PURPOSE, SCOPE, SITUATION OVERVIEW, AND ASSUMPTIONS

Purpose

The purpose of the SERRP is to establish the concept of operations for **all-hazards** emergency response and recovery as it applies to State of Arizona agencies and partnering entities.

Scope

The SERRP describes the structure for implementing State of Arizona response and recovery policy and operations for all types of incidents. This plan is implemented when any emergency or disaster reaches a level that overwhelms local, county, or tribal resources, or is determined by the Governor to constitute a state of emergency.

Applicability

The SERRP is applicable not only to those state agencies that are listed within the plan as Primary and/or Support Agencies, but also to the following:

- Any state agency or department that may:
 - Be tasked to provide emergency response and/or recovery assistance.
 - Require emergency assistance to perform critical missions and services as directed per statutory requirements.

- Any political subdivision within the state requiring, or capable of providing, assistance.
- Any county or federally recognized tribal government located within the State of Arizona that formally requests state emergency assistance.
- Any non-governmental organization (NGO) or Private Sector Partner listed in this plan.
- Any organization considered a Critical Infrastructure/Key Resource (CI/KR) and requiring, or capable of providing, emergency response and/or recovery assistance.

Situation Overview

The SERRP leverages the results of the annual Arizona State Preparedness Report, Threat and Hazard Identification and Risk Assessment, and other applicable local, county, tribal, and state threat and hazard data to develop the Core Capabilities addressed in this plan. Threats and hazards addressed include, but are not limited to, the following:

- Natural hazards, such as floods, wildland and urban fires, drought, and heat emergencies.
- Technological and infrastructure hazards, such as transportation system failures and accidents, power failures, dam failures, chemical or other hazardous materials incidents, and radiological or nuclear material releases.
- Human-caused hazards, such as terrorist acts involving conventional weapons, weapons of mass destruction (WMDs), and cyber security threats.

The SERRP recognizes the 14 hazards identified in the State Hazard Mitigation Plan:

- Dam/levee failure
- Disease
- Drought
- Earthquake
- Extreme heat
- Fissure
- Flood
- HazMat incidents
- Landslide/mudslide
- Severe wind
- Subsidence
- Terrorism
- Wildfire
- Winter storm

No single threat or hazard exists in isolation. For example, an earthquake can lead to landslides, fires, and hazardous materials spills. The SERRP, therefore, focuses on Core Capabilities that can be applied to deal with not only the initial threat or hazards, but also the cascading effects. The SERRP addresses each of the Common, Response, and Recovery Core Capabilities.

National FEMA Core Capabilities Supported by the State Emergency Response and Recovery Plan (SERRP)	Emergency Support Functions (ESFs)														
	1 Transportation & Infrastructure	2 Communications	3 Public Works & Engineering	4 Firefighting	5 Emergency Management	6 Mass Care	7 Logistics	8 Public Health & Medical Services	9 Search & Rescue	10 Hazardous Materials	11 Agriculture & Natural Resources	12 Energy	13 Public Safety	14 *Recovery	15 External Affairs
Common Core Capabilities															
Planning	All ESFs support the three Common Core Capabilities														
Public Information and Warning															
Operational Coordination															
Response Core Capabilities															
Critical Transportation	X		X			X	X	X		X	X				
Environmental Response/Health and Safety			X					X		X	X				
Fatality Management Services			X			X		X							
Fire Management and Suppression				X											
Logistics and Supply Chain Management		X	X		X	X	X				X	X			
Mass Care Services		X			X	X	X				X				
Mass Search and Rescue Operations			X						X						
On-Scene Security, Protection, and Law Enforcement													X		
Operational Communications	X		X			X									
Public Health, Healthcare, and Emergency Medical Services				X		X		X			X				
Situational Assessment				X	X							X			
Infrastructure Systems	X	X	X				X			X	X	X		X	
Recovery Core Capabilities															
Economic Recovery														X	
Health and Social Services														X	
Housing														X	
Natural and Cultural Resources														X	

*ESF 14 is inclusive of the six Recovery Support Functions (RSFs) as delineated in the Arizona Disaster Recovery Framework (AZDRF).

Planning Assumptions

The SERRP is based on the following planning assumptions:

- Incidents begin locally and end locally, and are typically managed at the lowest possible jurisdictional level.
- Incidents may occur at any time and with little or no warning.
- Incidents may involve multiple hazards or threats that may impact multiple jurisdictions.
- The **Whole Community** is considered in all operations.
- Response priorities are life safety, incident stabilization, and property and environment conservation in that order.
- The recovery process begins during response.
- Incidents may exceed the capabilities of local, county, and tribal governments, and the private sector in the affected area(s).
- Resource and policy issues are addressed at the lowest organizational level practicable. Unresolved issues are elevated to the next level for resolution.
- Incidents may require the activation of the SEOC to coordinate operations and/or resource support.
- The Governor may request the President to declare a major disaster or emergency under the provisions of the Robert T. Stafford Act.
- Incidents may require integration and significant information sharing across multiple jurisdictions at the local, county, tribal, state, and federal levels, and between public and private sectors.
- Incidents may have significant short-term and long-term impacts, both physical and economic, beyond the State of Arizona.
- Incidents may result in a large number of casualties, fatalities, health and medical problems, displaced persons, property loss, disruption of normal CI/KR systems, disruption of essential public services, and/or significant damage to the environment.
- Incidents may attract an influx of spontaneous volunteers and donations.
- Incidents may require prolonged incident management operations and support activities.
- Incidents may require long-term recovery activities.
- The principles of NIMS are utilized when coordinating response or supporting recovery from an incident.
- Each state agency and volunteer organization involved in response and/or recovery documents their costs throughout the incident and seeks reimbursement as appropriate for expenses incurred during operations.

PLAN STRUCTURE

The SERRP is comprised of a Base Plan, fifteen (15) Emergency Support Function (ESF) Annexes, and six (6) Recovery Support Function (RSF) Appendices. A list of supplementary documents is also included. The SERRP references the DEMA Continuity of Operations Plan (COOP) and State Hazard Mitigation Plan (SHMP) as companion plans that collectively make up the comprehensive foundation of all-hazards emergency planning for the State of Arizona emergency management enterprise.

The SERRP does not include agency specific plans and procedures. However, it serves as the foundation for the development of respective local, county, tribal, state, and NGO plans and procedures in support of the SERRP.

Base Plan

The Base Plan serves as the foundation for all annexes and appendices in the SERRP. It describes the overall state structure, concept of operations, and **roles and responsibilities** comprising the statewide approach to emergency management. The Base Plan is designed to integrate the efforts and resources of local, county, tribal, state, private sector, NGOs, and, if necessary the Federal Government.

Annexes and Appendices

Annexes and Appendices provide high-level overviews of roles and responsibilities from subject matter expert agencies. They are meant to provide an easy to use, simplified explanation of necessary actions that agencies can reference during stressful and rapidly developing incidents.

The SERRP contains **Emergency Support Function (ESF) Annexes**, which are activated to support emergency response operations, and **Recovery Support Function (RSF) Appendices**, which are within the ESF 14 – Recovery Annex, to support recovery operations. Both ESFs and RSFs:

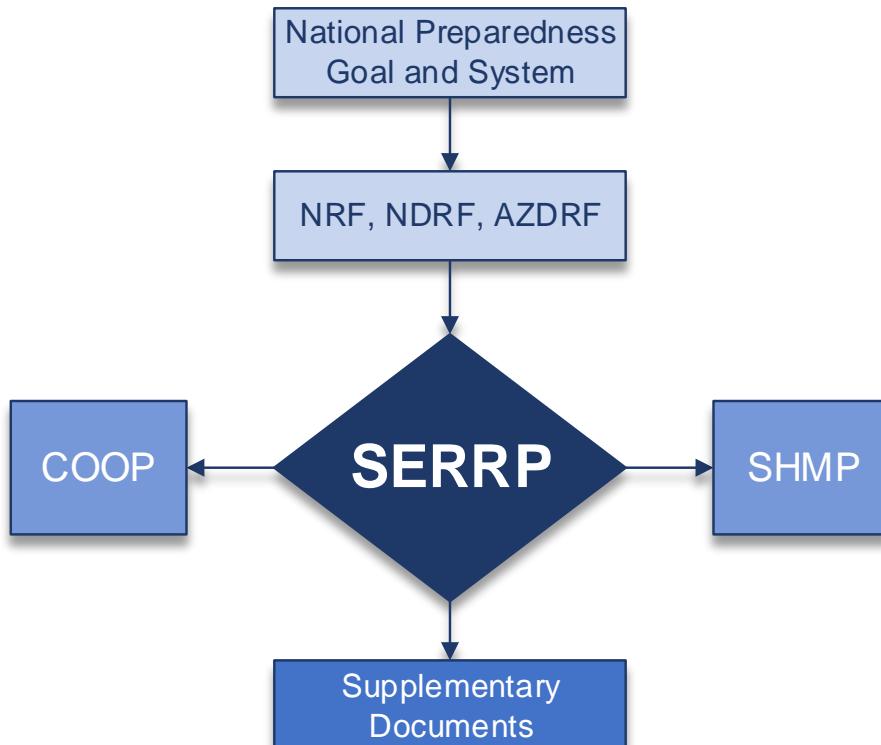

- Are an organizational structure for providing the emergency response and recovery support, resources, and program implementation needed to save lives, protect property and the environment, restore essential services and critical infrastructure, and help communities return to normal following an incident.
- Detail the high-level missions, policies, structure, and responsibilities of state agencies for coordinating emergency response and recovery support to local, county, and tribal authorities, and to other state agencies.
- Bring together core response and recovery capabilities of state departments and agencies, Private Sector Partners, and NGOs.
- Are coordinated and implemented by a Primary Agency, which is a state agency or department that has been selected based on authorities, resources, and capabilities necessary to support the respective functional areas.
 - The appropriate Support Agencies, Private Sector Partners, and NGOs are also selected for each annex based on their capabilities.
- Include specific actions required of the Primary and Support Agencies.

- May be selectively activated based on the needs of each incident.
- Should be augmented by supporting plans and procedures developed and maintained by Primary and Support Agencies to accomplish their respective operational missions.

Supplementary Documents

The SERRP serves as the foundation for the suite of supplementary documents that support the purpose and scope of the SERRP. Supplementary documents have statewide implications and further address policies and operations outlined in the SERRP.

- State of Arizona/Maricopa County Offsite Emergency Response Plan-Palo Verde Nuclear Generating Station
- Arizona Emergency Repatriation Plan
- The State of Arizona Emergency Operations Center (SEOC) Standard Operating Procedures (SOPs)
- FEMA Region IX Arizona All-Hazards Concept of Operations Plan (CONOPS)
- Arizona Nuclear and Radiological Incident Plan (AZ NRIP)
- Arizona Energy Assurance Plan

CONCEPT OF OPERATIONS

The SERRP is written as an **all-hazards** plan. The all-hazards approach is not focused on any specific threat, but addresses a broad spectrum of potential risks and impacts from any severe incident. This concept focuses on efforts to build, sustain, and deliver Core Capabilities by way of ESFs to achieve desired outcomes.

State of Arizona response and recovery activities, as detailed in the SERRP, are based on the situational needs related to each unique incident. Specific state agency and department **roles and responsibilities** are outlined in each ESF and RSF contained in this plan. Nothing in the SERRP alters or impedes the ability of first responders to carry out their specific authorities or perform assigned responsibilities according to their policies and procedures.

The SERRP facilitates coordination of requested resources among local, county, tribal, state, federal, NGO, and the private sector without superseding any organization's authorities or statutory functions and responsibilities.

Each ESF and RSF may be assigned a number of missions or tasks throughout an incident. The designated Primary Agencies are responsible for coordinating the activities of the applicable Annex/Appendix and ensuring that missions are accomplished. Primary Agencies and Support Agencies must have the authority to execute response and recovery operations.

Execution

Upon execution of the SERRP, the DEMA-EM Director will initiate state response by activating the State Emergency Operations Center (SEOC) and notifying the appropriate state agencies and departments assigned to the activated ESFs and RSFs. These agencies will take appropriate actions in accordance with their SERRP roles and responsibilities and through their individual respective agency policies and procedures.

Decisions related to public protection are vested in the level of jurisdictional government best suited for conducting the hazard analysis. In most cases, the level of government will be the local, county, or tribal authority. In those cases where the Governor declares a statewide emergency, this function may be assumed by the Governor or statutory designee.

Response Facility Organization

In addition to the local, county, and tribal emergency operations centers (EOCs), incident command posts (ICPs), and other local facilities, multiple state and federal operating facilities may also be activated to facilitate the movement and utilization of personnel and resources. The following represents the key state facilities referenced in the SERRP and most frequently activated during emergencies and disasters:

- State Emergency Operations Center (SEOC) - the primary location for coordination of state response and support, maintained and operated by DEMA. The SEOC is staffed by DEMA personnel and representatives from the activated ESF and RSF Primary and Support Agencies. It serves as the initial point-of-contact for affected county and tribal governments, state response and recovery agencies and departments, and federal agencies regarding state response activities.
 - In the event the SEOC becomes inoperable or uninhabitable, it may relocate to the alternate SEOC at the Pima County EOC, in Tucson, Arizona, as outlined in the DEMA COOP and SEOC Procedures Manual (Relocation Procedure).
- Joint Field Office (JFO) - the primary location for the coordination of state and federal response and recovery operations during Presidential-declared disasters, and this facility houses the Federal Coordinating Officer (FCO) and staff.
- Disaster Recovery Center (DRC) - the primary location within an impacted community for federal, state, local and non-governmental recovery assistance to individuals and families affected by a Presidential-declared disaster.
- Individual Assistance Service Center (IASC) - the state equivalent of a federal DRC.
- Joint Information Center (JIC) - the primary location that serves as a focal point for the coordination and dissemination of incident information to the public and media.
 - Under certain authorities and circumstances, agencies and departments may issue their own news releases related to their policies, procedures, and programs; however, these are to be coordinated with the JIC.
- State Emergency Call Center (SECC) - the ready-to-activate, scalable facility equipped with three dedicated workstations and six additional phone lines that the public can call into for timely and accurate incident specific information.
- Business Emergency Coordination Center (BECC) - the primary location for communication and coordination between the state and Private Sector Partners.
 - The BECC is typically activated virtually through WebEOC, but in the event that a physical location is needed, one can be established.

SEOC Activation and Coordination

The SEOC is the primary focal point for incident coordination and situational awareness during statewide emergencies or disasters. The SEOC is always monitoring for situational awareness and is activated to the level required by the incident. Upon activation, and based on the incident, the SEOC may maintain a sustained 24/7 interagency coordination operation, fusing public safety, incident intelligence, emergency response, public information, public health & medical, mass care and private sector reporting. The SEOC also facilitates emergency management information sharing and operational coordination with other local, county, tribal, federal, and non-governmental EOCs. Specifically the SEOC:

- Establishes and maintains real-time communications links with local, county, tribal, state agency and departmental EOCs, appropriate federal and non-governmental response facilities, and relevant elements of the private sector.

- Provides general situational awareness, common operating picture, and provides support to, and acting upon requests for additional resources or information from responding agencies to address the crisis at hand.
- Provides central coordination for facilitating and communicating timely dissemination of accessible and accurate messages to mitigate misinformation, inform public action, and explain (e.g., manage expectations) disaster response and recovery programs.

These actions are facilitated and accomplished by the SEOC activating those ESFs and/or RSFs pertinent to an incident and the coordination of response and recovery functions tasked to each Primary and Support Agency.

Multi-Jurisdictional Incidents

Emergencies and disasters may affect a number of local governments, counties, tribes, and communities concurrently. In those instances, upon request, the state government may provide:

- Technical assistance for response and recovery operations for each impacted county and/or tribal government.
- State liaisons dispatched for each impacted county and/or tribe to coordinate communications between their EOCs and the SEOC.
- Coordination of ESF and RSF agency and department resources through the SEOC to support the impacted jurisdiction's operations.
- Representation at ICPs where critical or expedited state assistance precludes normal response activities.

Recovery Operations

The SEOC is responsible for coordinating recovery activities. Certain recovery activities may commence concurrent with response operations. Response operations should set the conditions for the transition into an emphasis on recovery. Recovery activities follow guidance from the Arizona Disaster Recovery Framework (AZDRF), ESF 14 – Recovery Annex, and the six RSF Appendices.

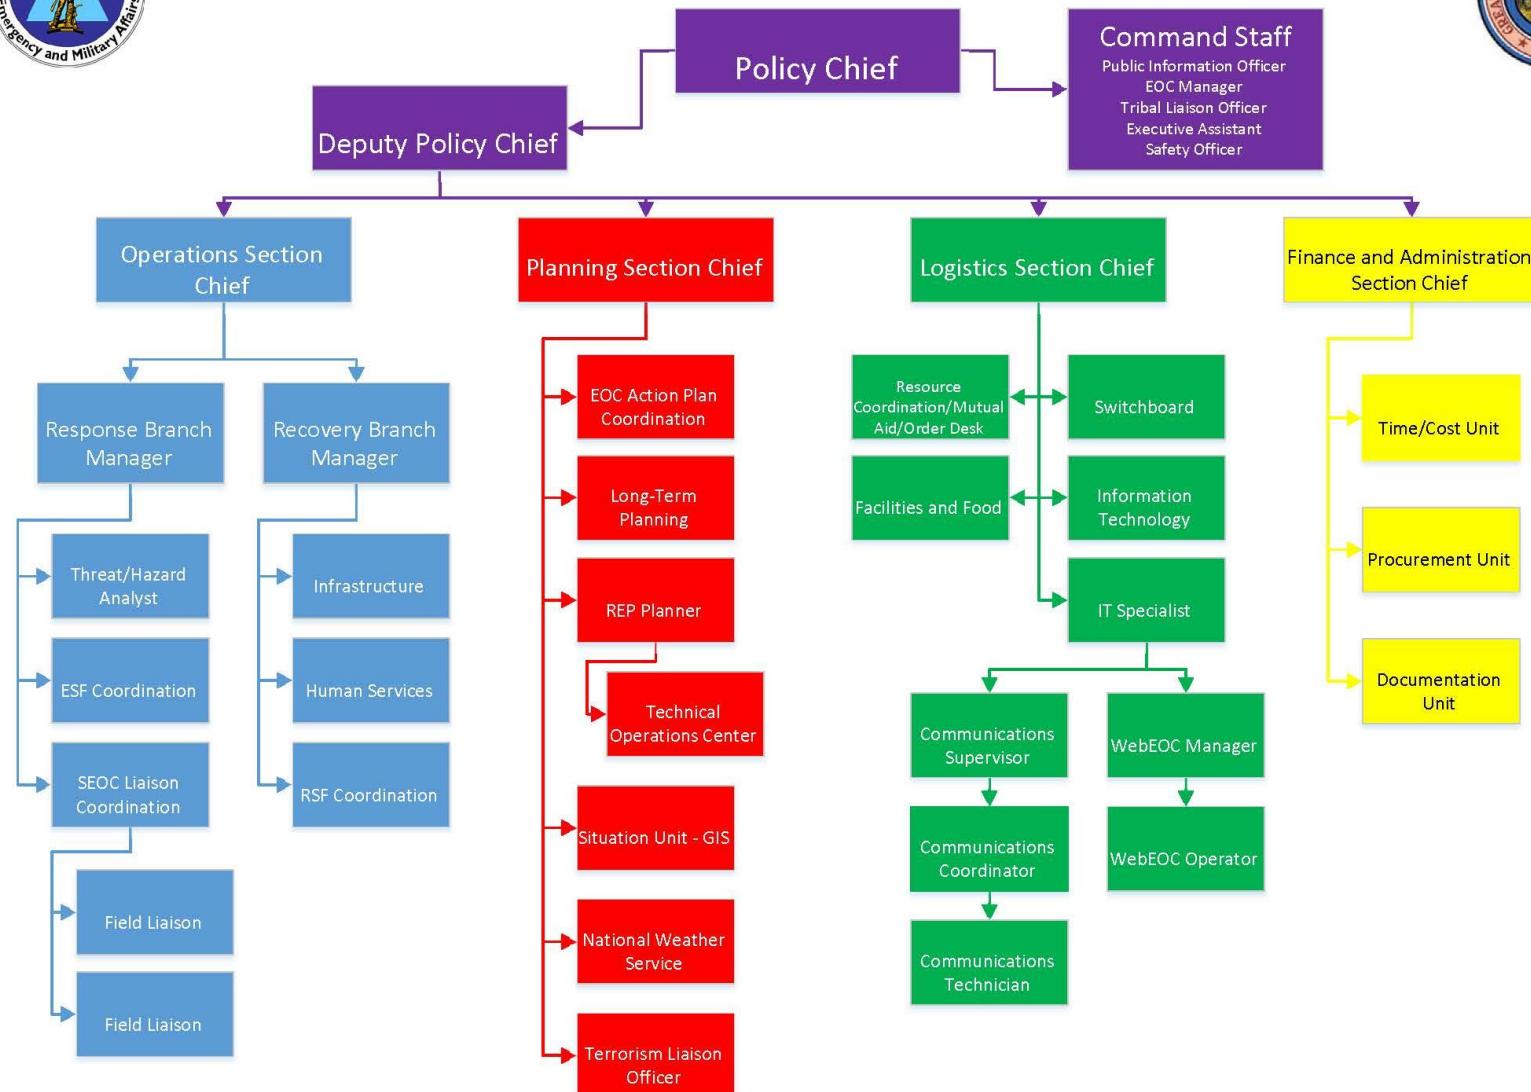

Following state response to an emergency or disaster, the following will occur:

- DEMA-EM shall coordinate the preparation of an After-Action Report/Improvement Plan (AAR/IP) documenting the state response effort or involvement. AAR/IP shall be developed for any level of response and recovery efforts or involvement, to include non-SEOC activation and undeclared events.
- Within 30 workdays, upon request from DEMA-EM, each agency involved in the response effort will provide DEMA-EM with an AAR/IP examining that agency's involvement and performance in the disaster response.
- DEMA-EM may submit a copy of the completed After-Action Report/Improvement Plan for all incidents to the Homeland Security Digital Library (HSDL.org) as a best practice.

Arizona State Emergency Operations Center

DIRECTION, CONTROL, AND COORDINATION

DEMA-EM coordinates statewide response and recovery support efforts by means of ICS. ICS, as set forth in the SERRP, is consistent with the concepts and principles of NIMS. ICS provides standardized terminology and procedures, unified command, and an action planning process which identifies incident response strategies and specific tactical actions. Utilizing ICS, the SEOC provides direction, control, and coordination of state resources during emergency operations. The SEOC is comprised of five sections:

- Policy Section is responsible for the strategic direction of statewide emergency operations and decision-making. When this plan is activated, the DEMA-EM Director/designee assumes overall responsibility and DEMA-EM becomes the lead agency for the coordination of emergency response and recovery support resources and activities. In a catastrophic incident, the Director may elect to consult with the FEMA Region IX Administrator regarding when to request activation of the Region IX Arizona All-Hazards CONOPS Plan in order to expedite the ordering of federal resources.
- Planning Section coordinates elements of information to provide incident analysis and is responsible for monitoring and reporting the current situation status through available technical expertise, and projecting and planning for future contingencies through the development of the Emergency Operations Center Action Plan.
- Operations Section is responsible for state coordination and incident response assets. The section monitors and assesses current operational conditions, shortfalls, and unmet human needs through state agencies and volunteer organizations. The Operations Section, via the Recovery Branch, also coordinates Gubernatorial and Presidential Emergency Declarations, damage assessments, mitigation projects, and the establishment of assistance centers, as appropriate.
- Logistics Section coordinates personnel, resources, communications augmentation, supplies, procurement, etc., required to support incident response.
- Finance and Administration Section coordinates the cost accounting aspects related to response and recovery, to include procurement approval, and collection of all related documentation.

ORGANIZATION AND ASSIGNMENT OF RESPONSIBILITIES

Each local, county, and tribal authority establishes and provides for emergency management within their jurisdiction in accordance with state emergency plans and programs and local, county, or tribal ordinances. When county, tribal, or private sector resources and capabilities are overwhelmed, they may request state assistance. State assistance may be requested with or without an emergency declaration. Subsequently, the Governor may request federal assistance under a Presidential Emergency/Disaster Declaration. What follows is a summary of the roles and responsibilities of key elected officials and those state agencies and departments that are signatories to the SERRP.

Governor

The Governor of the State of Arizona is responsible for state government operations per Arizona Revised Statutes (ARS) Title 41-101. The Governor may delegate any of the powers vested in the Office of the Governor under this chapter to the Adjutant General who may further delegate those powers to the DEMA-EM Director/designee. As the State's Chief Executive, the Governor is responsible for the public safety and welfare of the people of the State of Arizona. Specifically, the Governor:

- Under ARS Title 26-303, (E)1, “*...shall have complete authority over all agencies of the state government and the right to exercise, within the area designated, all police power vested in the state by the constitution and laws of this state in order to effectuate the purposes of this chapter.*”
- Is responsible for coordinating state resources to address the full spectrum of actions to prevent, prepare for, respond to, mitigate against, and recover from incidents in an all-hazards context.
- May enter into reciprocal aid agreements or compacts, mutual aid plans, or other interstate arrangements for the protection of life and property with other states and the Federal Government. Such mutual aid arrangements may include the furnishing of supplies, equipment, facilities, personnel, and services.
- Under ARS Title 26-102, is the Commander-in-Chief of the Arizona National Guard when in State Active Duty.
- Requests federal assistance when it becomes clear that local, county, tribal, or state, capabilities to respond to or recover from an incident will be insufficient or are exhausted.

County Chairpersons

The Chairperson, County Board of Supervisors, as the political jurisdiction's chief executive, is responsible for the public safety and welfare of the people of that county. Specifically, County Chairpersons:

- Are responsible for coordinating county resources to address the full spectrum of actions to prevent, prepare for, respond to, mitigate against, and recover from incidents involving all hazards including natural disasters, human-caused accidents, terrorism, and other emergencies and disasters.

- Provide leadership and play a key role in communicating to the public, and in helping people, businesses, and organizations cope with the consequences of any type of incident within the county or unincorporated town(s).
- May authorize negotiations and entrance into mutual aid agreements with other jurisdictions to facilitate resource sharing.
- May request state and federal assistance through the Governor when the jurisdiction's capabilities are insufficient or exhausted.

Tribal Chief Executive Officer

The Tribal Chief Executive Officer is defined as the individual responsible for the public safety and welfare of the people of that Tribal Nation. Specifically, Tribal leaders:

- Are responsible for coordinating tribal resources to address the full spectrum of actions to prevent, prepare for, respond to, mitigate against, and recover from incidents involving all hazards.
- Provide communication to the Tribal Nation.
- Negotiate and enter into mutual aid agreements with other tribes and local or county jurisdictions to facilitate resource sharing.
- Make decisions on behalf of the tribe regarding emergency declarations.

State Emergency Council (SEC)

The State Emergency Council (SEC) was established in 1971 and has a variety of duties related to state emergencies. It does not have the authority to promulgate rules. However, it does have the authority to make recommendations to the Governor on rules, policies, and procedures as it fulfills the following functions. Specifically the SEC:

- Monitors each State-declared Emergency.
- Informs the Governor when a disaster is substantially mitigated.
- Approves and monitors the use of the Governor's Emergency Fund (GEF).
- Issues a state of emergency in the absence or unavailability of the Governor and the Secretary of State.
- Performs duties in accordance with applicable state statutes.

Arizona Department of Emergency & Military Affairs, Emergency Management (DEMA-EM)

The Arizona Department of Emergency and Military Affairs, Emergency Management (DEMA-EM) supports the mission to provide emergency management capabilities to the citizens of Arizona and the Nation through the following responsibilities:

- Is appointed by the Governor to coordinate state response and recovery activities.
- Coordinates the cooperative effort, within Arizona, of the Federal Government, state agencies and departments, political subdivisions, mutual aid and Emergency

Management Assistance Compact (EMAC)/AZ Mutual Aid Compact (AZMAC) partners, and NGOs.

- Provides necessary coordination of state personnel and equipment to alleviate suffering and loss resulting from an emergency or disaster.
- Works with the FCO, during Presidential declared disasters.
- Functions as the principal point of contact regarding local, county, tribal, and state activities, implementation of this plan, and state compliance with the Federal-State agreement and disaster assistance following a County or State Declaration of Emergency or Major Disaster.

All State Agencies

State agencies considered in the emergency management enterprise have a role in response and recovery operations. Specifically, state agencies:

- Appoint an emergency coordinator and an alternate to act and make decisions on behalf of the agency during emergencies/disasters, as required by the Governor's Executive Order 2017-06 included in the introductory materials of this plan.
- Develop and maintain plans and/or procedures for accomplishing Primary and Support Agency responsibilities assigned in the SERRP.
 - While DEMA-EM is responsible for coordination of the Primary Agencies, each Primary Agency is responsible for coordination of their respective Support Agencies, Private Sector Partners, and NGOs.
- Develop cooperative agreements and relationships with private organizations and associations that possess resources or capabilities for assistance.
- Establish and maintain liaison with federal counterparts to ensure their procedures and available resources are current.

Non-Governmental Organizations (NGOs)

Arizona has a number of volunteer organizations that provide assistance during emergencies. The American Red Cross (ARC) and The Salvation Army (SA) assume the lead agency roles for most volunteer efforts associated with mass care, sheltering, and donations and volunteer management during incidents.

Many NGOs, including the ARC and SA, are members of the Arizona Voluntary Organizations Active in Disaster (AzVOAD). While each NGO is a stand-alone group, they regularly communicate with each other, exchange ideas, supplies, equipment, and volunteers.

ESF and RSF Primary Agencies coordinate with the appropriate NGOs based on their capabilities as they relate to each functional area.

Private Sector Partners

The State of Arizona encourages cooperative relations between the private sector and governmental authorities at all levels. The SERRP incorporates Private Sector Partners to ensure effective coordination and integrations with these partners. Roles and responsibilities of these Private Sector Partners are outlined in the SERRP within each ESF as appropriate. Private Sector

Partners hold many different roles in the SERRP to include being recognized as CI/KR, a state response resource, or a regulated party.

Federal Government Support

Pursuant to Homeland Security Presidential Directive #5 (HSPD-5) and delineated in the National Response Framework (NRF), the Secretary, Department of Homeland Security, is responsible for coordinating federal operations to prepare for, respond to, mitigate against, and recover from major disasters, terrorist attacks, and other emergencies.

Additionally, the Secretary is designated as the Principal Federal Official for domestic incident management. This role includes coordinating all federal resources utilized in response or recovery operations related to a major disaster or terrorist attack where federal support is requested by the state(s).

Specific information related to federal support can be found in the NRF. The Arizona All-Hazards CONOPS Plan, owned by FEMA Region IX, is used by Arizona and FEMA Region IX as a guide when FEMA assistance is needed in Arizona.

ESF Primary and Support Agencies and Partners

Through the Primary and Support Agencies and Private Sector Partners, the ESF structure provides a scalable method that can best address the requirements of each individual incident. Assignments of ESF Primary (P) Agency or Support (S) Agencies are as follows:

Emergency Support Function (ESF) Primary and Support Agencies and Private Sector Partners	ESF

INFORMATION COLLECTION, ANALYSIS, AND DISSEMINATION

DEMA coordinates the collection, analysis, and dissemination of state agency and department information during an incident. This process is coordinated with local, county, tribal, state, federal, NGOs, and the private sector based on the scope of the incident. Information coordination during an incident is managed by the Situation Unit in the Planning Section of the SEOC.

DEMA utilizes WebEOC, a web based situational awareness incident management system, GIS, and other technical tools to coordinate the information flow during incidents and to ensure a common operating picture among involved entities.

Terrorist incidents involving pre-incident intelligence may also include the Arizona Counter Terrorism Information Center (ACTIC), operated jointly by the Arizona Department of Public Safety (AZDPS) and the FBI.

Public information activities will be conducted through ESF 15 - External Affairs to ensure the coordinated, timely, and accurate release of a wide range of information to the news media and the public about emergencies/disasters and related activities. These activities will utilize the Joint Information System (JIS) for coordination and may be carried out from the SEOC or the JIC, if established.

COMMUNICATIONS

Response to and recovery from emergencies/disasters requires extensive communications support. Within the State of Arizona, communications systems vary widely in type, size, and technical complexity. The state supports local, county, regional, tribal, and statewide communications with the assistance of a wide range of communications equipment, operations centers, and communications specific personnel.

When communications systems are disrupted, local, county, tribal, and private sector entities respond using available resources and capabilities. When additional support is required, county and tribal authorities may seek assistance from the state. When incidents expand beyond local communications networks, it is often necessary to manage and coordinate communications resources at the state level until the incident is resolved.

The SEOC serves as a full-spectrum, continuously operating, statewide communications hub, maintaining contact with partner organizations throughout all phases of emergency operations. The DEMA-EM Communications Unit Leader (ComL) or designee, under the direction of the Logistics Chief, exercises direct supervision of the SEOC communications systems.

Dedicated communication networks have been established linking the SEOC, local, county, and tribal governments, NGOs, federal warning centers and response facilities. Primary radio networks are monitored at levels appropriate to the event(s). Operational communications are scalable to meet communications needs of any type of incident.

DEMA, as the Primary Agency for ESF 2 – Communications, will coordinate the establishment of temporary communications in the area(s) affected by an incident according to the SERRP, the State Communications Interoperability Plan (SCIP) and in alignment with the National Interoperability Field Operations Guide (NIFOG). DEMA will also coordinate with the Statewide Interoperability Coordinator (SWIC) to ensure interoperability of communications systems during an emergency according to the SCIP and ESF 2. Support will include state agency communications, commercially leased communications, and communication services provided by volunteer groups.

DEMA coordinates and implements a warning and notification system known as the “Communicator.” This callout system uses internet, SMS, and telephone lines to notify internal DEMA staff and external partners of any SEOC activations or significant events. The Communicator has multiple redundant inputs and outputs as well as geographic data center diversity in order to offer a very high level of reliability.

DEMA utilizes multiple communications systems to provide for reliable and redundant communications. DEMA communications vehicles are available to provide backup radio communications support and other Type-3 vehicles located

around the state with VHF, UHF, and 700/800 MHz radios can augment this capability. A satellite communications trailer with Wi-Fi and Voice/Data is also available. Additionally, a National Guard communications vehicle is available to support state needs.

Other communications systems available include, but are not limited to: FEMA National Radio System (FNARS), landline, cellular voice/data, satellite telephone/data equipment, Arizona Public Service Company radio network, National Warning System (NAWAS), VHF/UHF radios, RACES and ARES amateur radio networks, video teleconference, e-mail, and WebEOC.

FINANCE

Finance activities associated with response and recovery operations will be conducted in accordance with local, county, tribal, and state authority plans, policies, and procedures, which are coordinated with the SERRP. Financial management guidance, as outlined in the SERRP, is meant to ensure that funds are provided and financial operations conducted in accordance with state statutes, policies, and procedures. This includes applies to the following entities:

- State departments and agencies, political subdivisions, and local or county agencies that request or provide assistance in response to major disasters or emergencies declared by the Governor per the ARS or the President per the Robert T. Stafford Disaster Relief and Emergency Assistance Act.
- State departments and agencies that request or provide intra-state support in incidents that do not involve a Gubernatorial or Presidential Declaration.

Policies and procedures for the use of GEF funds are described in regulations contained in ARS Titles 26 and 35 and Arizona Administrative Code (AAC) Title 8. Reimbursement and advancement of any eligible costs will be processed in accordance with the AAC Title 8.

The following are guidelines for financial management activities:

- Each involved entity is responsible for providing financial services and support to response operations in the field. Funds to cover costs for response activities eligible for reimbursement will be administered by DEMA-EM. All liabilities incurred under the provisions of the SERRP will be assumed per the provisions of the ARS.
- The Governor's Office and State Legislature will consider and give timely approval for funds needed to sustain emergency response operations. As response and recovery operations proceed, estimates will be gathered and additional emergency/disaster appropriations will be evaluated.
- A Gubernatorial Emergency/Disaster Declaration will permit funding from the GEF under the provisions of the ARS. Additional funds may also be made available by special appropriations of the State Legislature.
- An incident may result in a Presidential Declaration of Emergency or Major Disaster thus permitting supplemental response and recovery funding from the Federal Disaster Relief Fund.
- The SEOC Finance and Administration Section will support the management of financial actions related to the coordination of response resources and activities and recovery field operations.
- Eligible expenses incurred in the period immediately following an event (i.e., personnel, travel and logistical assistance for situation/damage assessment activities) but before a Gubernatorial Declaration of an emergency/disaster may be reimbursable if the event rises to the level of a declaration of emergency.
- DEMA-EM will not reimburse agencies for direct state assistance provided to a state agency or local government without a Gubernatorial Declaration. This does not preclude agencies from responding with direct state assistance consistent with their own emergency authorities and funding independent of the emergency funding.
- The assisting entity must ensure that all emergency response/recovery actions are at the request of the local government and realize the cost implication for the county since direct state assistance is generally on a "cost share" basis.
- In a declared emergency, the DEMA-EM Director may direct state agencies to utilize their authorities and resources to assist county/local response efforts. Assistance may be provided with or without compensation as determined by the Director. Reimbursement will be provided for eligible costs.
- It is the responsibility of each ESF Primary and Support Agency to keep DEMA-EM informed regarding funding needs to conduct ESF operations.

- All involved entities should accurately document all mission assignments. This documentation should include the name of the requesting official, organization, ESF which made the request, content of the tasking, and what action was taken.
- Documentation on mission assignments may be required to support the accounting for costs incurred in the state's response. This detailed documentation is not submitted as part of the request for reimbursement but should be maintained in each entity's records as supporting documentation for bills for reimbursement in the event of an audit.
- Should emergency funds be exhausted, DEMA-EM will request emergency supplemental disaster relief funding from the State Legislature. The DEMA-EM Director will maintain a draft disaster supplemental appropriations budget request which has been coordinated in advance with the Governor's Office of Strategic Planning and Budgeting and the Joint Legislative Budget Committee staff in order to expedite the approval process.
- Timely financial support of response activities will be critical to successful emergency response. Innovative and expeditious means may be used to achieve financial objectives. It is mandatory that generally accepted state financial policies, principles and regulations be employed to ensure against fraud, waste and abuse, and to achieve proper control and use of public funds.

LOGISTICS

The Governor of the State of Arizona is responsible for state government operations per ARS Title 41-101 and maintains the authority to direct any state agency to utilize its authorities and resources. This role may be minimal when providing resource support for local emergencies and disasters, or more significant for those incidents considered to be statewide emergencies.

DEMA-EM is responsible for identification and location of supplemental logistical support as requested by local, county, tribal, and state partners, including Arizona National Guard aviation and ground resources and the 91st Civil Support Team (CST). Requests for National Guard assistance will be forwarded to the Adjutant General via SEOC Operations Section Chief. The DEMA-EM Director will evaluate the requests and make appropriate recommendations to the Adjutant General and the Governor.

DEMA-EM is also responsible for requesting, coordinating, and approving state-level mutual aid assistance through AZMAC. Arizona is signatory to the national EMAC and will respond in accordance with the directives outlined in ARS Title 26 Chapter 3.

ADOA is responsible for procurement of equipment, supplies, and materials not available from state resources. Local and county governments and state agencies will be responsible for documentation of equipment and supplies utilized in the response and recovery operations. Federal agencies will be responsible for logistical support of their response forces.

Logistics operations and resource coordination utilizes NIMS Resource Management guidance as a basis for the structure. The SEOC will serve as a central information source regarding

availability and disposition of state and federal resources. WebEOC will be used to make requests and track resources in accordance with the SEOC WebEOC Resource Ordering Procedures.

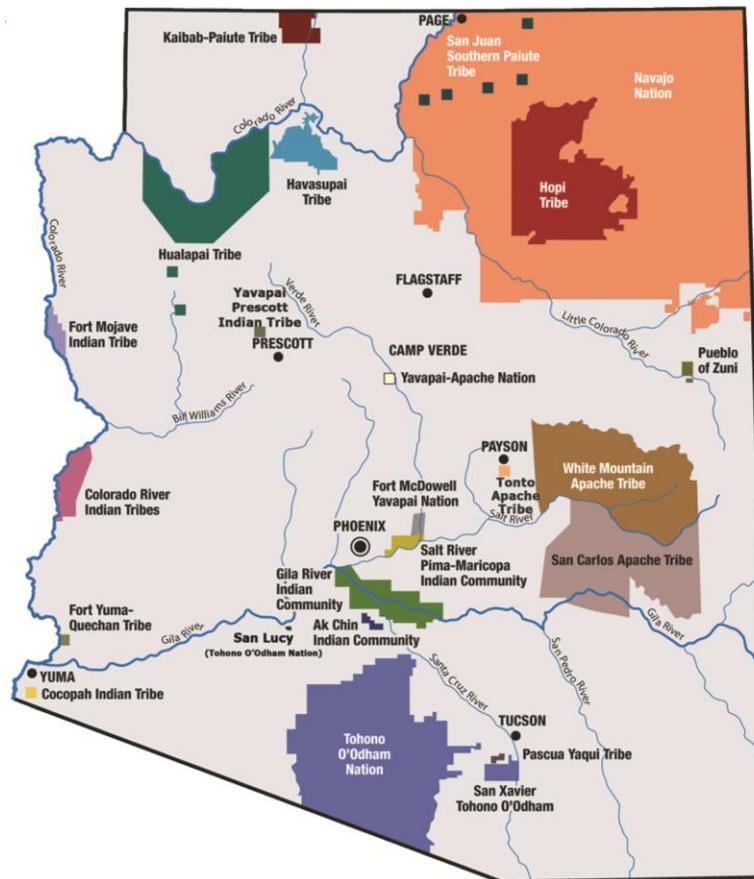

When resources are not available within local, county, or tribal governments, the Primary Agencies will seek to fulfill the request from another Primary or Support Agency or Private Sector Partners. Each Primary and Support Agency will provide resources within their authorities and capabilities as the incident requires. Resources will be allocated in coordination with the SEOC based on identified priorities as requested and as available.

Logistics support and resource requirements within the scope of the SERRP are outlined in resource management and logistics procedures.

TRIBAL RELATIONS

The State of Arizona is home to 22 sovereign Tribal Nations, with reservation lands covering over a quarter of the state. DEMA is committed to strengthening its relationships with Arizona tribes and providing emergency assistance to tribal governments and communities during potential or actual incidents on tribal lands that overwhelm the tribe and its response capability, or are of statewide or national significance. Activities within the scope of the SERRP will adhere to the DEMA Tribal Consultation Policy. The SERRP does not contravene existing laws governing federal relationships with federally recognized tribes.

The DEMA Tribal Liaison facilitates the delivery of incident management programs, resources, and support to tribal governments. The Tribal Liaison functions, resources, and operations are coordinated through ESF 5 – Emergency Management Annex. The Tribal Liaison will be established in the SEOC Policy Section to ensure the reliable and timely flow of critical information between any impacted tribes EOC(s) and the SEOC. The Tribal Liaison will maintain situational awareness and provide ongoing technical assistance for potential resource planning and mission objectives. If requested by the impacted tribe(s), the Tribal Liaison will be deployed to provide assistance and support.

The following are tribal relations policies that apply to all state agencies and departments identified in the SERRP:

- State agencies and departments comply with existing federal laws and executive orders mandating that government entities deal with tribes on a government-to-government basis, reflecting the federally recognized tribes' right of self-government as sovereign domestic dependent nations.
- State agencies and departments requested to participate in potential or actual incident response on tribal lands and consult and/or collaborate with tribal governments on matters affecting the tribes must be aware of the social, political, and cultural aspects of an incident area that might affect incident management operations.
- State agencies and departments will coordinate with appropriate federal departments and agencies, to include FEMA, Bureau of Indian Affairs (BIA), and Indian Health Services (IHS), that have a trust responsibility to assist and support Tribal Nation(s) during an incident and the subsequent response and/or recovery operations.

EMERGENCY/DISASTER DECLARATIONS

When an incident exceeds the capabilities of a jurisdiction at any level, that jurisdiction may request assistance from the next level of government. Local, county, tribal, and state requests for disaster assistance will be made in accordance with the following:

- Town/City Government
 - Upon declaration of a local emergency, the mayor will govern by proclamation and has the statutory authority to impose all necessary regulations to preserve the commitments of local resources in accordance with emergency plans.
 - The local emergency proclamation should be forwarded to the county emergency services/management director.
- County Government
 - Upon receipt of a local emergency proclamation, the Chairman of the Board of Supervisors, often through the county emergency manager, will notify the SEOC that a situation exists that may require the proclamation of a county emergency and forward the resolution and application for state assistance to the DEMA-EM Director.
- Tribal Nations and Communities
 - Tribal Nations and Communities are recognized as sovereign nations.
 - The residents of Tribal Nations and Communities are also citizens of the state.
 - Tribal Nations and Communities have the option to declare an emergency independently or jointly w/ other jurisdictions within the state.
- State Government
 - Upon receipt of a local or county emergency declaration, the DEMA-EM Director will advise the Governor of the situation, and provide recommendation. The

Governor may proclaim a state of emergency in response to the request and execute all or portions of this plan.

- The Governor's authority does not require a local or county declaration and request for assistance. He/she can execute a gubernatorial declaration for all or part of the state if circumstances require such action.
- When federal aid is needed or a Presidential Emergency or Major Disaster Declaration is requested, the Governor's designee will contact the FEMA Region IX Administrator for assistance and to submit a formal request. The following actions will support these requests:
 - Survey the affected areas, jointly with FEMA staff if possible, to determine the extent of private and public damage.
 - Estimate the types and extent of federal disaster assistance required.
 - Consult with the FEMA Regional Director on eligibility for federal disaster assistance.
 - Furnish information on the extent and nature of state resources that have been or will be used to alleviate the conditions of the disaster.
 - Certification by the Governor that state and local governments will assume all applicable non-federal cost share required by the Stafford Act.
- The completed request, addressed to the President, is sent through the FEMA Regional Director. The FEMA Regional Director makes a recommendation to the Department of Homeland Security (DHS), Under Secretary, FEMA who, in turn, recommends a course of action to the President.
- For incidents in which a Presidential Declaration is not made, and a state agency or department is responding under its own authorities, that entity may require additional assistance from other state agencies or departments. In such circumstances, the affected state agency or department may request SEOC coordination to obtain that assistance.

PLAN DEVELOPMENT AND MAINTENANCE

The SERRP is a living document, meant to be continuously reviewed and revised. All involvement with the SERRP follows the DEMA-EM efforts to plan, train, exercise, and operationalize. Following this cycle ensures that the SERRP remains a current and dynamic plan.

Development and maintenance of the SERRP is coordinated by DEMA-EM, and because of the statewide significance, the state emergency management enterprise as a whole is responsible for this plan. Maintaining the SERRP as a living document in the most current form possible requires continuous commitment from all involved agencies and departments.

DEMA-EM, in coordination with agencies and departments identified in the SERRP, review this plan on an on-going basis. Updates to the SERRP continuously occur based on organizational and policy changes, gaps identified during exercises and actual events, and changes in roles and responsibilities. The DEMA-EM Director shall review the SERRP on an annual basis.

State agencies and departments are strongly encouraged to review and update their respective EOPs and SOPs in accordance with this and all future versions of the SERRP. Local, county, and tribal emergency management enterprise partners are welcome to familiarize their agencies with the SERRP and, if desired, incorporate elements of the document into their plans.

Training and Exercising the Plan

DEMA-EM will provide planning, training and exercise advice, counsel, and technical assistance to local, county, tribal, and state agencies, Private Sector Partners, and NGOs as requested.

DEMA-EM will coordinate periodic trainings and exercises of the SERRP to include the suite of supplementary documents and ESF/RSF plans and procedures to ensure operational capabilities. Exercises will adhere to the Homeland Security Exercise Evaluation Program (HSEEP) to ensure a comprehensive and continuing validation of State of Arizona enterprise all-hazards emergency planning.

A record of plan reviews, updates, and changes and training, exercise, and engagement activities is included in the introductory material of this plan.

INTRODUCTION

Purpose

Emergency Support Function (ESF) 1 – Transportation and Infrastructure describes disaster assistance available to local, county, tribal, and state entities through ADOT’s efforts in:

- Coordinating transportation infrastructure restoration and recovery activities.
- Supporting and assisting law enforcement agencies in traffic access and control.
- Providing access to transportation equipment and personnel as requested and as available.

Scope

ESF 1 provides transportation support to assist in incident management throughout the state and its Tribal Nations upon request from an overwhelmed jurisdiction. Activities within the scope of ESF 1 include:

- Processing and coordinating requests for state, federal, private, and non-governmental transportation support.
- Coordination of alternate transportation services as required.
- Coordination of state agencies and resources to manage, restore, and maintain transportation arteries.

- Assessing the damage to the transportation infrastructure.
- Analyzing the effects of disasters on the interstate and statewide transportation system.
- Monitoring the accessibility of transportation capacity and congestion.
- Implement management controls as required.

NOTE: Guidance for transporting people and supplies is contained in the ESF relating to the specific need (e.g., mass care, search and rescue, etc.). It is essential to the orderly flow of resources for ESFs to advise ESF 1 of all transportation movements arranged directly.

ROLES AND RESPONSIBILITIES

Primary Agency	Actions
AZ Department of Transportation (ADOT)	<ul style="list-style-type: none">• Coordinate the provision of state, federal, and non-governmental transportation services in support of local, county, tribal, and state governmental entities.• Coordinate response activities of the transportation infrastructure, and provide oversight of the affected systems and infrastructure.• Coordinate the recovery, restoration, and safety of the transportation infrastructure, and long-term recovery of systems and infrastructure.• Manage ADOT headquarters/State Engineers Office (SEO) functions including the Traffic Operations Center (TOC) and ADOT Departmental Operations Center (DOC).• Provide trained personnel to staff ESF 1 responsibilities at the SEOC Operations Section, the JFO, MACC, local EOCs, or any other temporary facility in the impacted region as required.<ul style="list-style-type: none">○ The representative to the SEOC will serve as liaison between the SEOC and ADOT and provide information on road closures, infrastructure damage, debris removal, and restoration activities.• Implement emergency functions to include the prioritization and/or allocation of state resources necessary to maintain and restore the state's transportation infrastructure.• Assess the condition of highways, bridges, tunnels and other components of the state's transportation infrastructure and:<ul style="list-style-type: none">○ Close those determined to be unsafe.○ Post signage and barricades.○ Inform law enforcement and emergency management personnel.○ Protect, maintain, and restore critical transportation routes and facilities.• Support and assist law enforcement agencies in traffic access and control, hazardous materials containment response, and damage assessment.• Assist state and local government entities in determining the most viable available transportation networks to, from, and within the disaster area and regulate the use of such networks.

	<ul style="list-style-type: none"> • Provide technical assistance to local, county, and tribal governments in the assessment of damage to the transportation infrastructure and the analysis of the impact of the disaster on transportation operations in the disaster area. • Coordinate and implement, as required, emergency-related response and recovery functions performed under ADOT statutory authorities. This includes coordinated management of the emergency highway funding for federally owned highways and highways on the Federal Aid System, hazardous material movement, and damage assessment, including safety- and security-related actions. • Assist in restoring the transportation infrastructure through ESF 3 and the Stafford Act. • Maintain records of cost and expenditures according to guidelines established in the Emergency Assistance Guide. • Provide ADOT law enforcement assets available as requested. • Communicate, collaborate, coordinate, and cooperate with DOT/Federal Aviation Administration, which oversees the operation and regulation of the U.S. National Airspace System, including during emergencies.
Support Agencies	Actions
AZ Department of Administration (ADOA)	<ul style="list-style-type: none"> • Assist in identifying sources for and contracting transportation services. • Provide financial management assistance upon request.
AZ Department of Corrections (ADC)	<ul style="list-style-type: none"> • Provide transportation assets and personnel as requested and as available.
AZ Department of Emergency & Military Affairs (DEMA) -Emergency Management	<ul style="list-style-type: none"> • Coordinate the acquisition, movement, and distribution of state-owned resources to the incident area upon request. • Coordinate transportation actions prior to ESF 1 full activation with other county EOC's. • Keep ADOT informed of early transportation actions with counties. • Assume responsibility for closeout of actions after ADOT and other ESF support agencies deactivate. • Assist in restoring the transportation infrastructure through ESF 3 –Public Works and Engineering and the Stafford Act. • Initiate and coordinate state requests for federal assets via EMAC and/or FEMA Region IX prior to designation of Presidential declaration.
AZ Department of Emergency & Military Affairs (DEMA) - AZ National Guard (AZNG)	<ul style="list-style-type: none"> • Provide staffing to the SEOC (and Joint Operations Center) to support ESF function when requested. • Provide military transportation capacity and personnel to move essential resources as requested and available. • Assist in restoration of the transportation infrastructure as requested.
AZ Department of Forestry and Fire Management (DFFM)	<ul style="list-style-type: none"> • Provide transportation assets and personnel.

AZ Department of Public Safety (AZDPS)	<ul style="list-style-type: none">• Provide staffing to the SEOC when requested in accordance with ESF 5.• Coordinate road blocks on state and federal highways.• Provide traffic control assistance.• Provide supplementary departmental transportation assets (e.g., fixed-wing, rotary aircraft, and all-terrain vehicles).• Provide transportation support resources (e.g., mechanics, pilots).
AZ State Parks (ASP)	<ul style="list-style-type: none">• Provide transportation assets and personnel.• Provide law enforcement assets as requested and available.• Provide helipad access and storage (space) areas.• Provide “off grid” capability (water, generators, etc.).

INTRODUCTION

Purpose

Emergency Support Function (ESF) 2 - Communications ensures the provision of state communications support to county, local, county, tribal, state, federal, and private sector response efforts during an incident. This ESF facilitates the delivery of information to emergency management decision makers, and assists in the stabilization and reestablishment of communications systems during incidents.

Scope

- Coordinate the establishment of temporary communications in the affected areas. Support will include state agency secure and non-secure communications, commercially leased communications, and communications services provided by voluntary groups, such as ARES and RACES
- Supplement the provisions of the National Plan for Telecommunications Support in Non-Wartime Emergencies, hereafter referred to as the National Telecommunications Support Plan (NTSP).
- Where appropriate, communications services may be provided through various sources including federal DHS programs, Shared Resources (SHARES) High Frequency (HF) Radio Program, Telecommunications Service Priority (TSP) Program, Government Emergency Telecommunications Services (GETS), and Wireless Priority Services (WPS).

ESF 2 acts to meet the telecommunications and essential elements of information needs of local, county, tribal, state and federal governmental agencies, NGOs, industry essential service providers, other Private Sector Partners, and individuals, families, and households, including individuals with disabilities and others with access and functional needs. The following are responsibilities of ESF 2:

- Provide disaster emergency communications, which consists of the technical means and modes required to provide and maintain operable and interoperable communications in an incident area.
- Support the temporary re-establishment of the basic public safety communications infrastructure.
- Coordinate the provisioning of priority and other telecommunications services at incident support facilities, and provide capabilities and services to aid response and short-term recovery operations.
- Facilitate the delivery of mission critical information to maintain situational awareness for emergency management decision makers and support elements.
- Develop and maintains a communications common operating picture.
- Coordinate incident radio frequencies.

The ESF 2 structure may be used in non-Stafford Act and non-disaster situations where the NRF applies.

ROLES AND RESPONSIBILITIES

Primary Agency	Actions
AZ Department of Emergency & Military Affairs (DEMA) - Emergency Management	<ul style="list-style-type: none">• Alert the appropriate state departments/agencies, NGOs, and private sector entities dependent on nature and complexity of incident.• Develop and maintain primary and alternate communications systems for contact with local jurisdictions, other state agencies, and interstate and national agencies as required for mission support.• Develop and supervise a comprehensive statewide emergency communications program and plan.• Assist other state agencies and local jurisdictions in developing communications plans and systems that interface with and support the statewide emergency communications system.• Conduct training and communications system exercises to ensure reliable statewide emergency communications support.
Support Agencies	Actions
AZ Department of Administration (ADOA) AZ Department of Forestry and Fire Management (DFFM)	<ul style="list-style-type: none">• As directed, update the Executive Staff of Agencies, Boards and Commissions as to the status of the incident.• Develop emergency communications support plans that provide alternate or supplementary support to the state emergency communications system.

INTRODUCTION

Purpose

Emergency Support Function (ESF) 3 – Public Works and Engineering assists the state response by coordinating and organizing the capabilities and resources of state government to facilitate the delivery of public works services, technical assistance, engineering expertise, construction management, and other support to prevent, prepare for, respond to, and recover from an incident, disaster, or terrorist action that overwhelms available local and/or county resources.

Scope

ESF 3 is structured to provide public works and engineering-related support for the changing requirements of statewide incident management to include preparedness, prevention, response, recovery, and mitigation actions. Activities within the scope of ESF 3 include:

- Supporting assessments of public works and infrastructure
- Executing emergency contract support for life-saving and life-sustaining services
- Providing technical assistance to include engineering expertise, construction management, and contracting
- Providing emergency repair of damaged public infrastructure and critical facilities.

ESF 3 is linked to and works closely with the RSF 5 - Infrastructure Systems under the AZDRF to coordinate the transition from emergency measures to long-term restoration activities.

ROLES AND RESPONSIBILITIES

Primary Agency	Actions
AZ Department of Transportation (ADOT)	<ul style="list-style-type: none"> • Provide technical assistance, project management, engineering expertise, and construction management resources and support during response activities to critical infrastructure. • Provide engineering personnel and support to assist in damage assessment, structural inspections, debris clearing, and restoration of the state's transportation infrastructure. • Provide personnel, equipment, supplies, and other resources to assist in emergency operations such as repair and restoration of transportation infrastructure (e.g., highways, bridges, transit systems, and railways) debris removal, flood fighting, and other related tasks. • Identify private resources, including those of the Associated General Contractors of AZ, to support local and county efforts in procurement of external consulting services for assessing the structural and fire safety of damaged buildings and lifelines (public works and utilities). • Provide engineering support to conduct Preliminary Damage Assessments (PDAs) prior to a state or Presidential disaster declaration and in the preparation of Project Worksheets (PWs) after a declaration. • Coordinate potential funding that can be used for repair or reconstruction of major highway facilities and railroads damaged infrastructure.
Support Agencies	Actions
AZ Department of Administration (ADOA)	<ul style="list-style-type: none"> • Provide technical assistance in contract management, procurement, construction inspection, and environmental assessments.
AZ Department of Emergency & Military Affairs (DEMA) - Emergency Management	<ul style="list-style-type: none"> • Provide training for personnel selected to assist with the PDAs and PWs prior to dispatch to the disaster area. • Assist in the procedures for documenting expenses.
AZ Department of Emergency & Military Affairs (DEMA) - AZ National Guard (AZNG)	<ul style="list-style-type: none"> • Provide personnel, supplies, transportation, and equipment as requested and available.
AZ Department of Environmental Quality (ADEQ)	<ul style="list-style-type: none"> • Provide personnel to assist in damage assessments of drinking water systems, waste water systems, and the decision making process for determining necessary emergency repairs. • Coordinate with ADHS to determine the potability of water from public water systems, the suitability of other sources of water for treatment and consumptive use, and identify hazardous materials having the potential to impact drinking water sources (e.g., ground and surface waters). • Identify locations and provide safety guidance for areas affected by hazardous materials. Ensure the protection and cleanup of these areas.

	<ul style="list-style-type: none"> • Assist in locating suitable debris disposal sites, and provide guidance on areas affected by hazardous materials (See ESF 10). • Issue emergency environmental waivers and legal clearances for disposal of materials from debris clearance and demolition activities.
AZ Department of Housing (ADOH)	<ul style="list-style-type: none"> • Provide direct technical support and advice on procurement of external consulting services for assessing the structural and fire safety of damaged buildings and lifelines (public works and utilities). • Provide personnel to assist in damage assessment, structural inspections, debris clearance monitoring, and restoration of facilities in general as requested and as available.
AZ Department of Health Services (ADHS)	<ul style="list-style-type: none"> • Provide guidance related to health problems associated with hazardous materials. • Coordinate with ADEQ in determining the suitability for human consumption of water from local sources. • Collaborate with BRC to enable contaminated debris management activities by coordinating and/or providing resources, assessments, data, expertise, technical assistance, monitoring, and other appropriate support.
AZ Department of Health Services (ADHS), Bureau of Radiation Control (BRC)	<ul style="list-style-type: none"> • Enable radiological contaminated debris management activities by coordinating and/or providing resources, assessments, data, expertise, technical assistance, monitoring, and other appropriate support.
AZ Department of Water Resources (ADWR)	<ul style="list-style-type: none"> • Provide technical engineering expertise in determining emergency operations required for restoration, flood control facilities, dam safety, drainage channels, and other related areas. • Provide engineering support to assist in evaluating damage to water control systems, such as dams and levees as requested and available.
AZ Geological Survey (AZGS)	<ul style="list-style-type: none"> • Provide engineering support to assist in evaluating damage to water control systems, such as dams, levees, and water delivery facilities and structures as requested and available.
AZ Registrar of Contractors (AZROC)	<ul style="list-style-type: none"> • Provide a list of structural contractors whose licenses are in dispute or in revocation upon request. • Assist in contractor disputes related to structural restoration and/or damage estimates associated with a disaster or terrorist incident. • Provide support for local building authorities.

INTRODUCTION

Purpose

Emergency Support Function (ESF) 4 - Firefighting provides support for the detection and suppression of wildland, rural, and urban fires resulting from, or occurring coincidentally with, an all hazard incident requiring a coordinated national response for assistance.

Scope

ESF 4 coordinates firefighting activities and provides personnel, equipment, and supplies in support of local, county, tribal, and state entities involved in wildland, rural, and urban firefighting operations.

ROLES AND RESPONSIBILITIES

Primary Agency	Actions
AZ Department of Forestry and Fire Management (DFFM)	<ul style="list-style-type: none">Maintain contact with the SEOC, advising of resource needs.Assign representatives as required to the SEOC to coordinate fire service missions and resources in the operations and logistics groups.Procure resources through the Supplemental Dispatch System.Provide fire fighting training, conduct fire safety inspections, and coordinate some fire service operations in the state.
Support Agencies	Actions
AZ Department of Agriculture (AZDA)	<ul style="list-style-type: none">Respond as needed in case of fire threat to farms and ranches.Respond as needed in case of movement of range livestock into inhabited areas due to fire/threat in their home pastures.Coordinate provision of livestock transportation resources and temporary holding facilities.

AZ Department of Corrections (ADC)	<ul style="list-style-type: none"> • Provide fire fighting personnel (certified wildland firefighter inmates from minimum security facilities). • Provide vehicles, water trucks, and construction equipment.
AZ Department of Emergency & Military Affairs (DEMA) - Emergency Management	<ul style="list-style-type: none"> • Coordinate the planning for and response to natural and human-caused fires, and life safety threats, except wildland fires, which exceed or are likely to exceed the capability of local government. • Coordinate and manage the use of fire service resources responding to emergencies/disasters through the Supplemental Dispatch System. • Notify the AFCA and ASFD when this ESF is activated, and request appropriate representatives to serve in the SEOC. • Provide support and coordination of resources as needed. • Develop operational procedures to include: <ul style="list-style-type: none"> ○ Internal and external alert notification. ○ Expenditure documentation. ○ Operational checklists. ○ Coordinate continuing actions and recovery operations. • Maintain a listing of fire service resources in cooperation with AZ Department of Forestry and Fire Management, and the AFCA.
AZ Department of Environmental Quality (ADEQ)	<ul style="list-style-type: none"> • Assume role of State On-Scene Coordinator (SOSC) for HazMat related issues and ensure environmental (air, waste, water) issues are addressed. • Monitor air quality and meteorological conditions, and advise Incident Commander of unhealthy smoke levels for determining whether public evacuations are warranted. • Provide personnel to assist in damage assessments of drinking water systems, wastewater systems and the decision making process for determining necessary emergency repairs. • Coordinate with ADHS to determine the potability of water from public water systems, the suitability of other sources of water for treatment and/or consumptive use, and in identifying hazardous materials having the potential to impact drinking water sources (e.g., ground and surface waters). • Identify locations and provide safety guidance for areas affected by hazardous materials. Ensure the protection and cleanup of these areas. • Assist in locating suitable debris disposal sites and provide guidance on areas affected by hazardous materials (See ESF 10). • Issue emergency environmental waivers and legal clearances for disposal of materials from debris clearance and demolition activities.
AZ Department of Health Services (ADHS)	<ul style="list-style-type: none"> • Assist county and tribal public health organizations in identifying available emergency medical services. • Identify special needs supervised care facilities in evacuation area. • Provide epidemiologist services. • Identify ambulance support resources.

	<ul style="list-style-type: none">● Provide support from the state laboratory.● Provide interpretation of air quality data relating to public health.● Assist county public health agencies to ensure compliance with health and safety codes for food establishments relative to power outages.
AZ Department of Public Safety (AZDPS)	<ul style="list-style-type: none">● Provide security for state property and evacuated areas.● Provide roadblocks on state and federal highways.● Assist in evacuation of threatened population from state lands.● Provide rotary and fixed wing aircraft.● Provide crime laboratory support for evidence collection, body identification, and notification of next of kin.
AZ Department of Transportation (ADOT)	<ul style="list-style-type: none">● Provide resource and equipment for traffic closures.● Provide law enforcement for road closures.● Provide equipment, supplies, and personnel for non-fire tasks.● Provide public information support.● Provide liaison with IMTs as needed.
AZ Game & Fish Department (AZGFD)	<ul style="list-style-type: none">● Respond as needed in case of fire threat to fisheries and hatcheries.● Respond as needed in case of movement of wildlife into inhabited areas due to fire/threat in their home territory.● Provide peace officers to control traffic.● Provide transportation resources.

EMERGENCY SUPPORT FUNCTION 5 – EMERGENCY MANAGEMENT ANNEX

Primary Agency

**AZ Department of Emergency & Military Affairs (DEMA)
Emergency Management**

Support Agencies

All State Agencies, Boards, and Commissions

INTRODUCTION

Purpose

Emergency Support Function (ESF) 5 – Emergency Management is responsible for coordinating overall activities of state-level government for incident response and the management of state resources in support of an overwhelmed jurisdiction, state agency, or Tribal Nation's request for assistance.

ESF 5 provides the core management and administrative functions toward fulfilling the mission of the SEOC.

The purpose of the center is to ensure coordinated and effective resource response when an emergency exhausts the capabilities of a county or tribal entity and, if necessary with multiple state and/or federal response agencies.

Coordination of all state-directed response and recovery services will be through the SEOC Section Chiefs and the designated State Coordinating Officer (SCO) to provide for the most efficient management of resources.

Scope

Utilizing the principals and objectives of NIMS and ICS, Activities within the scope of ESF 5 include:

- Serve as the support ESF for all state departments and agencies across the spectrum of statewide incident management from prevention to response and recovery.
- Facilitate information flow in the pre-incident prevention phase in order for the potential placement of assets on alert or the prepositioning of assets for quick response.
- Transitions and is responsible for support and planning functions during the post-incident response phase.
- Provide core emergency management and coordination activities of state resources during emergency operations.
- Ensure the efficient use of all resources to protect lives and property.

ESF 5 activities include those functions that are critical to support and facilitate multi-agency planning and coordination for operations involving potential and actual incidents of statewide significance. This includes:

- Alert and notification.
- Deployment and staffing of DEMA-EM emergency response teams.

- Strategic incident action planning.
- Coordination of operations, logistics and material, information management.
- Facilitation of requests for federal assistance.
- Resource acquisition and management (to include allocation and tracking), worker safety and health, facilities management, financial management, and other support as required.
- Describe to the public the procedures and support requirements necessary for the activation of the SEOC.
- Collect and process disaster conditions and disseminate emergency public information about an actual or a potential emergency situation.

ROLES AND RESPONSIBILITIES

Primary Agency	Actions
AZ Department of Emergency & Military Affairs (DEMA) - Emergency Management	<ul style="list-style-type: none">• Work with all partners to develop coordinated interagency operational plans.• Ensure a common operating picture and shared situational awareness for the whole community through effective planning and information management.• Develop reports and other products for incident situational awareness.• Coordinate and manage the development of interagency remote sensing and geospatial information used in support of a potential or actual response to an incident.
Support Agencies	Actions
All State Agencies, Boards, and Commissions	<ul style="list-style-type: none">• Provide accurate and timely information related to an actual or potential incident.• Develop and execute plans related to an actual or potential incident.

INTRODUCTION

Purpose

Emergency Support Function (ESF) 6 - Mass Care coordinates and provides life-sustaining resources, essential services, and programs when the needs of disaster survivors exceed local, county, tribal, and state government capabilities.

Scope

Mass care, emergency assistance, temporary housing, and human services agencies and organizations at the state, local, county, tribal, and federal levels work together to provide life-sustaining assistance to disaster survivors. Activities within the scope of ESF 6 include:

- Mass Care - congregate sheltering, feeding, distribution of emergency supplies, and reunification of children with their parent(s)/legal guardians and adults with their families.

- Emergency Assistance - coordination of voluntary organizations and unsolicited donations and management of unaffiliated volunteers; essential community relief services; non-congregate and transitional sheltering; support to individuals with disabilities and others with access and functional needs in congregate facilities; support to children in disasters; support of mass evacuations; and support for the rescue, transportation, care, shelter, and essential needs of household pets and service animals.
- Temporary Housing - rental, repair and loan assistance; replacement; factory-built housing; semi-permanent construction; referrals; identification and provision of safe, secure, functional, and physically accessible housing; and access to other sources of temporary housing assistance.
- Human Services - disaster assistance programs that help survivors address unmet disaster-caused needs and/or non-housing losses through loans and grants; also includes supplemental nutrition assistance, crisis counseling, recovery case management, disaster unemployment, disaster legal services, and other state human services programs and benefits to survivors.

State ESF 6 agencies are linked closely with two RSFs defined in the NDRF: Housing and Health and Social Services. Following an incident, these RSFs may be activated concurrently with ESF 6, although their initial focus is on planning and information sharing rather than response. When active at the same time, the ESFs and RSFs collaborate and share information while focusing on their respective functions. There is intentional overlap between ESF and RSF missions, but, as ESF requirements diminish, RSFs assume the residual ESF activities that are associated with recovery. The timing of this transition depends on the incident and the needs of survivors. ESF 6 works closely with the Housing RSF to coordinate the transition of survivors from sheltering and temporary housing to long-term and permanent housing as quickly as possible.

ESF 6 also coordinates closely with the Health and Social Services RSF to ensure continuous support for social services needs in the impacted communities.

ROLES AND RESPONSIBILITIES

Primary Agency	Actions
AZ Department of Emergency & Military Affairs (DEMA) - Emergency Management	Response <ul style="list-style-type: none">• Activate SEOC and appropriate primary/support agencies.• Provide mass care, housing and human resources direction, coordination and availability of resource activities.• Coordinate logistical and fiscal activities supporting priorities and activation associated with ESF 6.• Coordinate information on available habitable housing units, within or adjacent to the disaster or affected area for use as emergency shelters.• Provide assistance to human and animal evacuees if necessary.• Act as liaison between the ARC and state agencies. The ARC will request assistance from state agencies through the SEOC Operations Section.• Assist in the provision of medical supplies and services.

	<p>Recovery</p> <ul style="list-style-type: none"> • Assist in establishing priorities for and the coordination of the transition of ESF 6 response operations to recovery via ESF 14 and the RSFs. • Assist in victim confidentiality and the release of information for recovery services, benefits eligibility, and notification of relatives. As the primary agency for recovery activities pursuant to a Gubernatorial or Presidential-declared disaster or emergency, DEMA Recovery Section provides ESF 6 staff to various assignment locations, as appropriate. <p>On-Going</p> <ul style="list-style-type: none"> • Plan and support regular meetings with the primary and support agencies related to preparedness, response, and recovery activities. • Provide leadership in coordinating and integrating overall state/federal efforts associated with mass care, housing, and human services. • Provide leadership of the Access and Functional Needs Task Force.
Support Agencies	Actions
AZ Commission for the Deaf & Hard of Hearing (ACDHH)	<ul style="list-style-type: none"> • Ensure Mass Care messages are delivered to the population in an accurate and timely manner. • Provide technical assistance to SEOC and other local, county, and tribal entities upon request.
AZ Department of Agriculture (AZDA)	<ul style="list-style-type: none"> • Provide support involving the emergency relocation of livestock. • Provide technical assistance regarding the care and welfare for food producing animals exposed to a disaster.
AZ Department of Economic Security (ADES)	<ul style="list-style-type: none"> • Provide human services assistance for those individuals, households and families with mass care and disaster recovery needs including those with access and functional needs currently enrolled in ADES programs. • Assist county authorities in identifying victims with special emergency needs within their respective jurisdictions. • Provide federal food products as overseen by the department upon request and as available.
AZ Department of Health Services (ADHS)	<ul style="list-style-type: none"> • Assist local, county, tribal, and state entities to ensure that health standards are maintained in shelters (see ESF 8 - Public Health/Medical). • Provide non-medical volunteers through ESAR-VHP to augment personnel assigned to shelters upon request and as available. • Provide technical assistance for shelter operations related to food/nutrition vectors, water supply, and waste disposal. • Assist in the provision of medical supplies, medical screenings, and shelter surveys. • Administer Crisis Counseling Program and other disaster-related behavioral health relief as necessary.
AZ Department of Housing (ADOH)	<ul style="list-style-type: none"> • Provide assistance with acquiring resourcing short-term and long-term housing solutions to impacted survivors.

AZ Department of Public Safety (AZDPS)	<ul style="list-style-type: none"> • Assistance ADOT and local governments in coordinating traffic control and directing evacuees to reception/care centers or shelters. • Coordinate security of reception/care centers or shelters.
AZ Department of Transportation (ADOT)	<ul style="list-style-type: none"> • Assist the AZDPS and local law enforcement in directing evacuees and emergency workers to county reception /care centers or shelters.
AZ Health Care Cost Containment System (AHCCCS)	<ul style="list-style-type: none"> • Provide human services assistance for those individuals, households and families with mass care and disaster recovery needs
AZ Statewide Independent Living Council (ASILC)	<ul style="list-style-type: none"> • Provide technical assistance in sheltering operations, food services and other considerations associated with access and functional needs.
AZ State University (ASU)	<ul style="list-style-type: none"> • Provide technical & physical assistance in sheltering operations, food services, and other considerations.
American Red Cross (ARC)	<ul style="list-style-type: none"> • Support local government in the management and coordination of sheltering, feeding, emergency first aid services, and support services to the disaster-affected population. • Provide appropriate authorities in response to disaster welfare inquiries and family reunification requests. • Manage mass care logistical and related fiscal activities. • Provide liaison to the SEOC. • As the co-lead for mass care and support agency for ESF 6: • Work with DEMA to identify available mass care capacity, anticipate mass care requirements, and establish strategies to address gaps in coordination with local, county, tribal, state, and federal agencies, NGOs, and Private Sector Partners. • Provide mass care technical assistance to DEMA and serves as its principal mass care subject matter expert. • Facilitate coordination and planning among government, NGO, and private sector entities that provide mass care services in response to major disasters. • Support DEMA in working with designated state Mass Care Coordinator for mass care in planning, preparedness, and response activities to include exercise participation. • Work closely with DEMA at designated locations to support ESF 6 activities as requested. • Provide situational awareness and reports on current mass care activities prior to and during response operations. • Work with DEMA to facilitate the mobilization of NGO and Private Sector Partners for provision of mass care services in support of states. • Support reunification efforts through its Safe and Well web site and reunification teams. • Provide critical disaster relief and preparedness information to the public through proactive media.

Local, County, Tribal Emergency Management	<ul style="list-style-type: none"> • Maintain responsibility for shelter operations in the unincorporated portions of the county. • Coordinate county operations support requests and tribal jurisdiction ESF 6 needs between the SEOC and impacted jurisdiction(s). • Establish reception and care centers to register evacuees and direct them to an appropriate shelter. The county EOC will work with the SEOC to ensure that evacuees' needs are met. • Ensure that law enforcement support is provided for internal and external shelter security. • Ensure that fire protection and safety services are provided through available community fire departments. • Ensure that emergency medical support is readily available for shelters. • Coordinate with Public Health to ensure sheltering needs are met for assisted care patients in private homes, with limited abilities and latchkey children.
County/Tribal Health	<ul style="list-style-type: none"> • Provide medical services and equipment to shelters and triage centers as requested and available • Assist shelter operations within jurisdictional boundaries including nutritional guidelines, public health advisories, etc. • Ensure health standards are maintained at shelters. • Ensure sheltering needs are met for assisted care patients in private homes, persons with access and functional needs and latchkey children.
County Sheriff (CSO)	<ul style="list-style-type: none"> • Assist local and tribal authorities with law enforcement activities including, crowd control, surveillance, shelter security, etc. as requested and available.
Incorporated Communities	<ul style="list-style-type: none"> • Maintain responsibility for shelter operations within their jurisdiction. Specific organizations located within the community, (i.e., local ARC chapter, school district superintendent, other local voluntary organization(s), etc.) may be requested to assist with sheltering operations. • Coordinate the need for additional sheltering or existing shelter logistical needs with the county EOC. • Ensure that local law enforcement provide for internal and external shelter security. • Ensure that fire protection and safety services are available to shelter(s) through community fire department(s). • Ensure that emergency medical support is readily available for shelter(s). • Ensure the sheltering needs are met for assisted care patients in private homes, persons with limited abilities and latchkey children. • Ensure health standards are maintained at shelters. • Coordinate shelter decontamination and/or "shelter sealing" needs with County Public Health and County EOC.

AZ Voluntary Organizations Active in Disaster (AzVOAD)	<ul style="list-style-type: none">• Provide assistance in sheltering operations, food services, and other identified needs, including housing and human services for disaster victims and families.• Provide liaison/representative to the SEOC upon request.
Citizens Corps Program	<ul style="list-style-type: none">• Provide certified human resources to complement state response and recovery activities upon request and as available.
The Salvation Army (SA)	<ul style="list-style-type: none">• Support the management and coordination of bulk distribution of emergency relief items.• Provide liaison/representative to the SEOC upon request
AZ Humane Society (AZHS)	<ul style="list-style-type: none">• Provide technical assistance regarding care and welfare for animals exposed to disaster.• Assist in procurement of animal shelter, food, health, and medical care needs as requested and as available.
Mental Health Association of Arizona (MHAAZ)	<ul style="list-style-type: none">• Provide volunteer disaster behavioral health services, as requested and as available.• Provide technical assistance to SEOC during incident response and recovery operations.

INTRODUCTION

Purpose

Emergency Support Function (ESF) 7 – Logistics addresses the provision of state resource support to county and tribal governments and state organizations, prior to, during, and after an incident of statewide significance. This includes the coordination of NGO and private sector resource response efforts during an incident that overwhelms a political subdivision, Tribal Nation, or state agency.

Scope

This ESF involves the provision of logistical and resource support to local, county, and tribal governments and state organizations during the immediate response phase of an emergency/disaster.

- This support may include relief supplies, office or other space required, office equipment, office supplies, telecommunications, contracting services, transportation services, and

personnel required to support immediate response activities.

- It also provides logistical support for requirements not specifically identified in other ESFs (e.g., stocks surplus to the needs of state government).
- This ESF also addresses the effort and activity necessary to evaluate, locate, obtain, and provide essential material resources.

This ESF will coordinate the state's resource support activities in the areas affected by an emergency or disaster. Resource support may include activities involving:

- State departments/agencies.
- Intrastate emergency management mutual aid agreements.
- NGOs.
- Other states through EMAC.
- The private sector.
- The Federal Government through the NRF.

This ESF also recognizes that prior to or during an incident of catastrophic proportions within the state, the Federal Government may provide immediate deployment of pre-identified federal resources to the affected area prior to actual formal request from the state.

ROLES AND RESPONSIBILITIES

Primary Agency	Actions
AZ Department of Emergency and Military Affairs (DEMA) - Emergency Management	<ul style="list-style-type: none">• Coordinate all state resources that are requested and tasked to the emergency or disaster.• Manage resources in accordance with NIMS.• Ensure that all procurement will be made according to current state laws and regulations.• Coordinate with the Federal Government during catastrophic incidents to determine what prepackaged response resources are needed under the Federal Catastrophic Incident Supplement.
Support Agencies	Actions
AZ Department of Administration (ADOA) AZ Department of Agriculture (AZDA) AZ Department of Corrections (ADC) AZ Department of Environmental Quality (ADEQ)	<ul style="list-style-type: none">• Implement internal plans to ensure adequate staff and administrative support.• Provide appropriate representation to the SEOC, if and when requested in support of the ESF function.• Provide resources as requested and tasked.

INTRODUCTION

Purpose

Emergency Support Function (ESF) 8 - Public Health and Medical Services provides the mechanism for federal assistance to supplement local, county, tribal, and state resources in response to a disaster, emergency, or incident that may lead to a public health, medical, behavioral, or human service emergency, including those that have international implications.

Scope

ESF 8 provides planning and coordination of public health, healthcare delivery, and emergency response systems to minimize and/or prevent health emergencies from occurring; detect and characterize health incidents; provide medical care and human services to those affected; reduce public health and human service effects on the community; and enhance community resiliency to respond to a disaster. These actions are informed through integrated biosurveillance capability, assessment of health and human service needs, and maintenance of the safety and security of medical products, and the safety and defense of food and agricultural products under the Food and Drug Administration's (FDA) regulatory authority.

Public health and medical services (e.g., patient movement, patient care, and behavioral healthcare) and support to human services (e.g., addressing individuals with disabilities and others with access and functional needs) are delivered through surge capabilities that augment public health, medical, behavioral, and veterinary functions with health professionals, pharmaceuticals to include distribution and delivery of medical countermeasures, equipment and supplies, and technical assistance. These services are provided to mitigate the effects of acute and longer-term threats to the health of the population and maintain the health and safety of responders. ESF 8 disseminates public health information on protective actions related to exposure to health threats or environmental threats (e.g., to potable water and food safety).

Jurisdictional medico-legal authorities are assisted in carrying out their fatality management responsibilities by providing specialized teams and equipment to conduct victim identification, grief counseling and consultation, and reunification of remains and effects to authorized persons. ESF 8 may continue providing services and ensure a smooth transition to recovery while the community rebuilds their capability and assumes administrative and operational responsibility for services. ESF 8 provides supplemental assistance to local, county, tribal, and state governments in the following core functional areas:

- Assessment of public health/medical needs
- Health surveillance
- Medical surge
- Health/medical/veterinary equipment and supplies
- Patient movement
- Patient care
- Safety and security of drugs, biologics, and medical devices
- Blood and tissues
- Food safety and defense
- Agriculture safety and security
- All-hazards public health and medical consultation, technical assistance, and support
- Behavioral healthcare
- Public health and medical information
- Vector control
- Guidance on potable water/wastewater and solid waste disposal
- Mass fatality management, victim identification, and decontaminating remains
- Veterinary medical support

ROLES AND RESPONSIBILITIES

Primary Agency	Actions
AZ Department of Health Services (ADHS)	<ul style="list-style-type: none"> • Activate and staff internal Health Emergency Operations Center (HEOC) appropriate to existing incident. • Request appropriate ESF 8 organizations to activate and deploy health and medical personnel, equipment, and supplies in response to requests for state public health and medical assistance via SEOC. • Provide leadership in coordinating and integrating overall state efforts to provide public health and medical assistance to the affected area. • Coordinate directly with federal health and medical authorities (e.g. USDHHS, CDC, USPHS, USFDA, etc.). • Assess whether food facilities in the affected area are able to provide safe and secure food. • Assist and supports county, local, and tribal governments and state agencies in conducting public health disease surveillance and procuring and administering pharmaceuticals in response to emergency public health incidents. • Assist local and county health departments in establishing a registry of potentially exposed individuals, performing dose reconstruction, and conducting long-term monitoring of this population for potential long-term health effects. • Evaluate local requests for deployment or pre-deployment of Strategic National Stockpile (SNS) or Chempack assets based on relevant threat information. • Assure the safety and security of food in impacted area, with AZDA. • Provide support for public health matters for radiological incidents.
Support Agencies	Actions
AZ Commission for the Deaf & Hard-of-Hearing (ACDHH)	<ul style="list-style-type: none"> • Provide subject matter expertise for access and functional needs in general population shelters. • Provide subject matter expertise for access and functional needs on public messaging. • Assist in public outreach.
AZ Department of Agriculture (AZDA)	<ul style="list-style-type: none"> • Provide leadership for coordination of animal issues such as disposal of animal carcasses and protection of animal health. • Provide technical assistance regarding zoonotic diseases associated with domestic animals. • Assist in the assurance of food safety and security in coordination with ADHS and the SEOC. • Provide technical advice and assistance regarding the handling and disposition of contaminated and non-contaminated animal remains. • Monitor and test affected area for food supply, livestock, and pet animal contamination that may be detrimental to public health.

AZ Department of Emergency & Military Affairs (DEMA) - Emergency Management	<ul style="list-style-type: none"> • Coordinate logistical and fiscal activities supporting priorities. • Act as liaison between ADHS and state agencies. ADHS will request assistance from state agencies through the SEOC Operations Section. • Coordinate the activation and implementation of state resources. • Assist in the provision of medical supplies and services. • Request activation of the National Disaster Medical System (NDMS) and/or SNS as requested and required. • Coordinate federal assistance with the disaster-designated FCO upon receipt of Presidential Declaration of a Major Disaster. • In conjunction with AZDPS, may request activation/deployment of the Metropolitan Medical Response System (MMRS). • Perform activities identified in the requisition and deployment of the SNS. • Provide healthcare volunteers through ESAR-VHP as requested and as needed.
AZ Department of Environmental Quality (ADEQ)	<ul style="list-style-type: none"> • Assist in the detection, containment, and removal of chemical and/or biological agents resulting from a terrorist incident involving WMD or other human-caused accident. • Provide support to ADHS and BRC in public health matters for radiological incidents. • Provide technical assistance and environmental information to assess health/medical aspects of situations involving hazardous materials, including technical and policy assistance in matters involving drinking water supplies and wastewater disposal. • Assist in identifying alternate water supplies for critical care facilities. • Provide bio-surveillance, warning, and detection capabilities for the water sector. • Provide advisories on solid and human waste collection and disposal and boil orders for potentially contaminated potable water supply in the affected area(s). • Assist county, local, and tribal authorities in the monitoring and surveillance of the incident area.
AZ Department of Public Safety (AZDPS)	<ul style="list-style-type: none"> • Provide security of federally-allocated SNS state inventories as required while in state custody. • Provide assistance to ADOT and local governments in coordinating traffic control and directing evacuees to reception/care centers or shelters. • Assists in providing security for reception/care centers or shelters.
AZ Health Care Cost Containment System (AHCCCS)	<ul style="list-style-type: none"> • Provides insurance waivers to disaster impacted areas. • Provides coordination with Regional Behavioral Health Authorities (RHBAs).

AZ Department of Health Services (ADHS), Bureau of Radiation Control (BRC)	<ul style="list-style-type: none"> • In collaboration with ADEQ, ADHS, and DEMA, coordinate state assets for external monitoring and decontamination activities for radiological emergencies. • Provide, in cooperation with other state (and federal, if Presidential-declared disaster) agencies, personnel, and equipment, including portal monitors to support initial screening. • Provide advice and assistance to state and local personnel conducting screening/decontamination of persons leaving a contaminated zone. • Provide resources to evaluate, control, and mitigate radiological hazards to workers and the public. • Assist in the decontamination of victims. • Assist local, county, and tribal authorities in the monitoring and surveillance of the incident area. • Provides recommendations, advice, and assistance on the use of potassium iodide (KI) should a radiological/nuclear event involve the release of radioactive iodine.
AZ Department of Transportation (ADOT)	<ul style="list-style-type: none"> • In collaboration with the SEOC, and in coordination with other transportation agencies, assists in identifying and arranging for various types of transportation, to include air, rail, and motor vehicle. • At the request of ADHS, assist in patient movement with ADOT resources subject to ADOT statutory requirements (e.g. snow plows for ambulance escort, etc; ADOT does not have resources for patient movement). • Coordinates with the SEOC and the Federal Aviation Administration (FAA) for air traffic control support for priority missions.
AZ Department of Water Resources (ADWR)	<ul style="list-style-type: none"> • At the request of ADHS, provide locations for wells and some water levels. • Provide technical assistance and environmental information for the assessment of the health/medical aspects of situations involving hazardous materials, including technical and policy assistance in matters involving drinking water supplies. • Assist with policy matters involving drinking water supplies.
American Red Cross (ARC)	<ul style="list-style-type: none"> • Assist in providing first aid for sick and injured persons. • Provide coordination of blood/blood products in their responsible areas. • Provide a representative liaison to the SEOC upon activation.
AZ Humane Society (AZHS)	<ul style="list-style-type: none"> • Provide technical assistance regarding care and welfare of animals exposed to disaster. • Assists in procurement of animal shelter, food, health, and medical care needs as requested and as available.
AZ Pharmacy Alliance (AzPA)	<ul style="list-style-type: none"> • Provide technical assistance, volunteer pharmacy personnel, equipment, and supplies to aid victims.
AZ Veterinary Medical Association (AZVMA)	<ul style="list-style-type: none"> • Provide assistance in the care of injured animals in coordination with the AZDA and ADHS.

AZ Voluntary Organizations Active in Disaster (AzVOAD)	<ul style="list-style-type: none">Coordinate voluntary agencies that are able to provide resources to the affected areas.Provide assistance in health care, assisted care, medical equipment, and supplies for disaster victims and families.Provide governmental liaison/representative to the SEOC upon request.
Citizens Corps Program - Medical Reserve Corps (MRC)	<ul style="list-style-type: none">Provide certified human resources to complement state response and recovery activities upon request and as available.Provide public health support and credential verified health/lay-non health volunteers to complement state response and recovery activities upon request and as available.
Mental Health Association of AZ (MHAAZ)	<ul style="list-style-type: none">Provide volunteer disaster behavioral health services, as requested and as available.Provide technical assistance to SEOC during incident response and recovery operations.
United Blood Services (UBS)	<ul style="list-style-type: none">Provide coordination and delivery of blood products in their responsible areas.

INTRODUCTION

Purpose

Emergency Support Function (ESF) 9 – Search and Rescue is activated to rapidly deploy components of assets located within Arizona to provide specialized life-saving assistance to local, county, tribal, and state entities during an incident. ESF 9 activities include locating, extricating, and providing onsite medical treatment to victims trapped in collapsed structures. Search and Rescue (SAR) also covers all Wilderness Search and Rescue Missions (A.R.S. 11-441).

Scope

During incidents or potential incidents requiring a unified SAR response, SAR responsibilities reside with ESF 9 Primary and Support Agencies that provide timely and specialized SAR capabilities. Support agencies provide specific capabilities or resources that support ESF 9.

SAR services include distress monitoring, incident communications, locating distressed personnel, coordination, and execution of rescue operations, including extrication and/or evacuation, along with providing medical assistance and civilian services through the use of public and private resources to assist persons and property in potential or actual distress. No provision of this annex is to be construed as an obstruction to prompt and effective action by any agency to assist persons in distress.

ROLES AND RESPONSIBILITIES

Primary Agency	Actions
AZ Department of Emergency and Military Affairs (DEMA) - Emergency Management	<ul style="list-style-type: none"> • Coordinate SAR state activities and supplement the activities of local government. • Coordinate SAR AZTF #1 activities with federally-deployed US&R task forces through the Incident Commander. • Assist the Governor in requesting the Presidential Declaration of a major disaster if necessary. • Ensure feeding, shelter, salary reimbursement, and other logistical support of SAR AZTF #1 task force for incidents of extended duration. • Conduct pre-incident planning and coordination activities. • Maintain ongoing contact with ESF primary and support agencies. • Conduct periodic ESF meetings and conference calls. • Coordinate efforts with corresponding private sector organizations. • Coordinate ESF activities relating to catastrophic incident planning and critical infrastructure preparedness as appropriate. • Coordinate and manage state task force deployment to, employment in, and demobilization from the affected area. • Coordinate logistical support for state assets during field operations. • Provide patient evacuation and continuing care after entrapped victims are removed from collapsed structures by task force personnel, when county and local emergency medical services resources are overwhelmed. • Support County Sheriffs with Wilderness SAR operations.
Support Agencies	Actions
AZ Department of Administration (ADOA)	<ul style="list-style-type: none"> • Supplement the administrative staff of responding agencies. • Identify a primary and alternate point of contact for receiving an alert from the SEOC upon activation.
AZ Department of Emergency & Military Affairs (DEMA) - AZ National Guard (AZNG)	<ul style="list-style-type: none"> • Provide personnel, heavy equipment, and helicopter support upon request and as available. • Assist with the transport of rescue workers and response personnel. • Provide additional security upon request and as available.
AZ Department of Housing (ADOH)	<ul style="list-style-type: none"> • Provide training and certification for functional elements of the team. • Provide technical assistance to task teams upon request. • Identify a point of contact and an alternate for receiving an alert from the SEOC upon activation.

AZ Department of Health Services (ADHS)	<ul style="list-style-type: none">• Coordinate the efforts of public/private sector health care organizations.• Direct the activities of the National Disaster Medical System (NDMS) and their Disaster Medical Assistance Teams (DMAT) if requested.• Provide operational support to task force medical teams from ESF 8 – Health and Medical Services, as requested by the SEOC, to provide liaisons, medical supplies, equipment, pharmaceuticals, supporting personnel, and veterinary support.• Provide patient evacuation and continuing care after entrapped victims are removed from collapsed structures by task force personnel, when county and local emergency medical services resources are overwhelmed.• Identify a point of contact and an alternate for receiving an alert from the SEOC upon activation.
AZ Department of Public Safety (AZDPS)	<ul style="list-style-type: none">• Coordinate security for the impacted area.• Coordinate road blocks on state and federal highways.• Provide traffic control assistance.• Provide supplementary departmental transportation assets (e.g., fixed-wing, rotary aircraft and all-terrain vehicles).• Provide transportation support resources (e.g., mechanics, pilots).
AZ Department of Transportation (ADOT)	<ul style="list-style-type: none">• Provide heavy equipment and operators to support activities as requested and available.• Provide barricades and other equipment to ensure the security of the disaster area.

AZ Game & Fish Department (AZGFD)

Environmental Protection Agency (EPA)

FEMA Region IX Regional Response Team

INTRODUCTION

Purpose

Emergency Support Function (ESF) 10 – Hazardous Materials provides state support in response to an actual or potential discharge and/or uncontrolled release of hazardous materials during incidents of statewide or national significance upon activation with the mission to:

- Protect life and property from risks associated with the discharge, release, or misuse of hazardous materials by providing coordinated, effective state support to local, county, and tribal governments upon request, and to coordinate with and request assistance from federal and private organizations as needed.
- Comply with the principles of NIMS to align processes with those identified in the NRF, and to comply with the state's hazardous materials emergency planning mandate, FEMA and the Environmental Protection Agency (EPA) policies and procedures.

Scope

- Provide a coordinated response to actual or potential hazardous materials incidents by placing the hazard-specific response mechanisms of local and tribal jurisdictions within the broader SERRP coordination structure.
- Include the appropriate response and recovery actions to prepare for, prevent, minimize, or mitigate a threat to public health, welfare, or the environment caused by actual or potential hazardous materials incidents. Hazardous materials addressed under the SERRP include chemical, biological, and radiological substances, whether accidentally or intentionally released. These include certain chemical, biological, radiological and explosive substances considered WMDs.
- Describe the lead coordination roles, the division of, and the specification of responsibilities among state agencies, statewide and onsite response organizations, personnel, and resources

that may be used to support response actions.

- Applies to all state departments and agencies with responsibilities and assets to support county, local, and tribal response to actual or potential oil or hazardous materials incidents.
- Describe criteria and procedures for requesting state/federal assistance.
- Response to hazardous materials incidents is carried out in accordance with the National Oil and Hazardous Substances Pollution Contingency Plan (NCP) (40 CFR Part 300). The NCP implements the response authorities and responsibilities created by the Comprehensive Environmental Response, Compensation, and Liability Act, and the authorities established by section 311 of the Clean Water Act, as amended by the Oil Pollution Act.

Appropriate response and recovery actions can include efforts to detect, identify, contain, clean up, or dispose of released hazardous materials. Specific actions may include:

- Stabilizing the release through the use of berms, dikes, or impoundments.
- Capping of contaminated soils or sludge.
- Use of chemicals and other materials to contain or retard the spread of the release or to decontaminate or mitigate its effects.
- Drainage controls; fences, warning signs, or other security or site-control precautions; removal of highly contaminated soils from drainage areas; removal of drums, barrels, tanks, or other bulk containers that contain oil or hazardous materials; and other measures as deemed necessary.

In addition, ESF 10 may be used to respond to actual or threatened releases of materials not typically responded to under the NCP but that, as a result of an incident of statewide or national significance, pose a threat to public health or welfare or to the environment. Appropriate ESF 10 response activities to such incidents include, but are not limited to:

- Household hazardous waste collection.
- Permitting and monitoring of debris disposal.
- Water quality monitoring and protection.
- Air quality sampling and monitoring.
- Protection of biological resources and natural ecological resources.

ROLES AND RESPONSIBILITIES

Primary Agency	Actions
AZ Department of Environmental Quality (ADEQ)	<ul style="list-style-type: none">• Establish an emergency response unit to function as the public health and environmental element of the state hazardous materials emergency management program (ARS §49-108), that:<ul style="list-style-type: none">○ Act as the SOSC for non-transportation hazardous materials incidents.○ Provide scientific support to other SOSCs and respond to incidents involving potential environmental hazards.○ Receive incident reports from facilities on reportable releases of

	<p>hazardous and/or extremely hazardous substances.</p> <ul style="list-style-type: none"> ○ Evaluate imminent hazards to human health and/or the environment. ○ Ensure that response/disposal phases of environmental emergencies are properly completed. ○ Determine, with ADHS, when reentry/closure phases are appropriate. ○ Monitor cleanup/disposal to ensure that all life/health and environmental threatening conditions are compromised. ○ Act as the incident specific state representative on the RRT. ○ For reportable quantity releases, encourage the responsible party, if known, to report to the NRC. For terrorist or suspected terrorist acts report to the NRC. ○ Request assistance of the FOSC as needed. ○ Implement WQARF use or request use of the GEF through DEMA. ○ Notify State Mine Inspector on incidents occurring on active and abandoned mining property. <ul style="list-style-type: none"> ● Plan and support regular meetings with other primary and support agencies related to preparedness, response, and recovery activities. ● Manage and administer water quality, air quality, and solid waste and hazardous waste regulations (ARS Title 49). ● Implement EPA programs including the: <ul style="list-style-type: none"> ○ Clean Air Act, as amended (PL 95-95). ○ Federal Water Pollution Control Act (PL 92-500). ○ Safe Drinking Water Act (PL 94-523). ○ Resource Conservation and Recovery Act (PL 94-580). ● Authorize and coordinate Water Quality Assurance Revolving Fund (WQARF) expenditures. ● Regulate and establish criteria and standards for the characteristics, identification, listing, generation, transportation, treatment, storage, and disposal of hazardous waste (ARS §49-922).
Support Agencies	Actions
AZ Department of Emergency and Military Affairs (DEMA) - National Guard 91 st Civil Support Team (CST)	<ul style="list-style-type: none"> ● Deploy the CST to support Civil Authorities (i.e. State On-Scene Coordinator(s), Incident Commander(s)) during events that result, or could result, in catastrophic loss of life or property as a result of: <ul style="list-style-type: none"> ○ Use or threatened use of WMD. ○ Terrorist attacks or threatened terrorist attacks. ○ An intentional or unintentional release of nuclear, biological, radiological, or toxic or poisonous chemicals. ○ Natural or man-made disasters. ● Provide support at incident sites by identifying hazards, assessing current and projected consequences, advising on response measures, and assisting with appropriate requests for additional support.

AZ Department of Public Safety (AZDPS)	<ul style="list-style-type: none"> • The Department of Public Safety Duty Officer (DPS-DO) will notify the appropriate SOSC as follows for: <ul style="list-style-type: none"> ◦ Highway transportation incidents notify DPS - Hazardous Materials Unit and ADOT Emergency Response Specialist. ◦ Non-transportation incidents notify ADEQ and DPS - Hazardous Materials Unit. ◦ Radioactive materials incidents notify DPS - Hazardous Materials Unit and BRC. • Pipeline incidents will be reported to the Pipeline Safety Section of the ACC and DPS Hazardous Materials Unit and: <ul style="list-style-type: none"> ◦ Railroad transportation incidents notify DPS Hazardous Materials Unit (HMU) and the Railroad Safety Section of the ACC. • For incidents involving WMDs or terrorist acts notify the ACTIC and FBI and DPS Hazardous Materials Unit.
AZ Department of Transportation (ADOT)	<p>Enforcement & Compliance Division</p> <ul style="list-style-type: none"> • Administer and enforce commercial vehicle registration, financial responsibility and highway user fees. • Conduct random vehicle inspections and monitors state ports of entry. <p>Transportation Division</p> <ul style="list-style-type: none"> • Perform highway maintenance and construction activities, possesses resources and capabilities to support response and recovery efforts. • Provide assistance with traffic control including personnel, vehicles, and signage. • Coordinate ADOT equipment, trained personnel, and materials for incident stabilization, as appropriate and within personnel's NIMS-ISC training and qualifications. <p>Emergency Preparedness and Management Group</p> <ul style="list-style-type: none"> • Coordinate ADOT emergency response and recovery operations. • Provide liaison support to the SEOC, local, county, and state agencies as requested. • Support and coordinate ADOT objectives at the Unified Command. • Support ADOT District personnel, Emergency Response Specialist, and SOSC. • Provide situation reports to agency and SEOC. • Activate the ADOT Departmental Operations Center (DOC) if necessary. <p>Safety and Risk Section Emergency Response Specialist/HazMat Unit</p> <ul style="list-style-type: none"> • Respond to transportation incidents involving hazardous materials on state highways and highway right-of-way. • Assist DPS and ADEQ in incident response activities. • Coordinate ADOT resources (equipment/personnel) used in response/containment operations. • Advise state highway engineers of damage to highways and other state property.

	<ul style="list-style-type: none"> • May act as the SOSC for transportation related hazardous materials incidents. • Provide support to other SOSCs. • For reportable quantity releases, encourage the responsible party, if known, to report to the NRC.
AZ Department of Health Services (ADHS), Bureau of Radiation Control (BRC)	<p>The Director, BRC, is the Governor's designee for receiving advance notification for both Highway Route Controlled Quantity (HRCQ) and Large Quantity shipments of radioactive material and for the transportation of nuclear waste. (Amendments to 10 CRF parts 71 and 73).</p> <ul style="list-style-type: none"> • Regulate the safe use, storage and disposal of radioactive materials. • Maintain primary responsibility for responding to and the handling incidents involving radioactive materials. • Provide radiological technical assistance (ARS §30-651 et. seq.). • Assume the role of SOSC for the incident hot zone in which radioactive materials are of primary concern. • Coordinate with the ADEQ SOSC for facility incidents and the DPS SOSC for transportation incidents. • Provide technical information/assistance for handling and disposal of radioactive materials. • Provide both field and fixed laboratory sample analysis as required. • Monitor cleanup/disposal phases.
AZ Corporation Commission (ACC)	<ul style="list-style-type: none"> • Regulate hazardous materials transportation by pipeline and rail through the adoption of the Federal Hazardous Materials Transportation Regulations (AZ Constitution, Art 15; ARS §40-441, §40-442 & §40-801, et. seq., and AAC §R14-5-107 & §R14-5-202). • Respond to pipeline and railroad incidents. • Support state/local response and recovery efforts. • Respond in accordance with the memorandum of understanding, dated July 1986, and revised April 1988, between ACC and DPS. • Assume the role of SOSC for pipeline incidents. • Support local emergency services and coordinate the federal/state/private activities and resources. • Provide the SOSC with a railroad safety liaison between the SOSC and railroad officials, and offer technical assistance. • Assume the role of SOSC for railroad incidents after the threat has been abated and cleanup determinations have been made. • Conduct railroad post-accident investigations.

INTRODUCTION

Purpose

Emergency Support Function (ESF) 11 – Agriculture and Natural Resources coordinates the emergency support activities of state, federal, and private resources in response to and recovery from natural or human-caused disasters and plant, pest, and foreign animal disease incidents that can negatively impact agricultural production. ESF 11 response efforts protect agricultural commodities that enter the food chain, thus ensuring the safety and security of the commercial food supply. ESF 11 response may also involve the identification, prevention, and control of diseases that threaten public health and welfare.

Scope

This ESF is applicable to all agencies identified in the Primary and Support Agency outline that may provide technical advice and assistance to county and local government efforts to prevent, protect, mitigate, respond to and recover from incidents affecting agriculture.

ROLES AND RESPONSIBILITIES

Primary Agency	Actions
AZ Department of Agriculture (AZDA)	<ul style="list-style-type: none"> • Assess the need for resources, and coordinate assistance and support in close cooperation with local, county, state and federal agencies and NGOs. • Deploy a representative to the SEOC to provide agricultural response assistance including; expertise on animal/plant diseases; threats posed by pests and invasive species; food supply safety/integrity, direction, control and resource availability. • Deploy a Public Information Officer to the AZDA Command Post or (JIC) to assist in the release of response information to the public and media.
Support Agencies	Actions
AZ Department of Emergency & Military Affairs (DEMA) - Emergency Management	<ul style="list-style-type: none"> • Provide interoperability communications links to multiple agencies.
AZ Department of Forestry and Fire Management (DFFM) AZ Game & Fish Department (AZGFD) AZ State Land Department (ASLD) AZ State Library, Archives, & Public Records (LAPR)	<p>NCH Resources Protection</p> <ul style="list-style-type: none"> • Provide scientific/technical advice, information, and assistance to help prevent or minimize injury to and to restore or stabilize NCH resources. Areas covered include: <ul style="list-style-type: none"> ○ Terrestrial and aquatic ecosystems ○ Biological resources, including fish and wildlife ○ State-managed threatened and endangered species ○ Archives, artifacts and sites of historical significance
AZ Department of Health Services (ADHS)	<p>Animal and Plant Disease and Pest Response</p> <ul style="list-style-type: none"> • Coordinate human surveillance activities with ESF 8 in zoonotic diseases. • Coordinate with ESF 8 in the case of a disaster in which animal/veterinary/wildlife issues arises, to ensure public health support. <p>Food Supply Safety and Security</p> <ul style="list-style-type: none"> • Coordinate with SEOC to conduct tracing, recall, and control of adulterated products. This includes proper disposal of contaminated products in order to protect public health and the environment in the affected area.
AZ Department of Public Safety (AZDPS) AZ Department of Transportation (ADOT)	<ul style="list-style-type: none"> • Establish and execute traffic control plans to support emergency operations, including quarantines and food embargos. • Support state and local government activities with law enforcement personnel and equipment resources as requested and as available.
AZ Department of Environmental Quality (ADEQ)	<ul style="list-style-type: none"> • Provide technical assistance in determining when water is suitable for human and animal consumptive uses. • Provide technical assistance of environmental impacts of response activities such as animal depopulation and carcass disposal.

INTRODUCTION

Purpose

Emergency Support Function (ESF) 12 - Energy supports the restoration and re-establishment of damaged energy systems and components for incidents requiring a coordinated statewide or regional response as requested.

Critical Infrastructure Protection (CIP) is the shared responsibility of the private sector and local, county, state, and federal governments. ESF 12 balances the need for critical infrastructure protection with the state philosophy of "free market approach" and minimum government intervention. The purpose of ESF 12 is to support energy infrastructure owners in their capability to conduct an effective and rapid response to energy emergencies. ESF 12 provides assistance as requested to support coordination efforts aimed at enhancing the resilience of the response, reducing risk and vulnerability in critical energy infrastructure, and recommending the appropriate actions to ensure adequate energy in the State of Arizona.

Scope

The term "energy" includes producing, storing, refining, transporting, generating, transmitting, conserving, building, distributing, maintaining, and controlling energy systems and components including electric power, petroleum product, natural gas and propane, and coal infrastructures.

An "**energy emergency**" is an actual or impending shortage or curtailment of usable, necessary energy resources, such that the maintenance of necessary services; the protection of public health, safety, and welfare; or the maintenance of a sound economy is imperiled in any geographical section of the state or throughout the entire state.

Most of the energy infrastructure in Arizona is privately owned. Private sector energy partners maintain their own policies and procedures for response to an energy emergency. Nothing in this annex alters or impedes the ability of these partners to carry out their specific authorities, but rather outlines capabilities of Primary and Support Agencies to support an incident when assistance is requested.

Under Arizona state law, public service utilities are regulated entities given the opportunity to earn a fair and reasonable return on their investments. These organizations maintain awareness of geography and demographic trends that may affect supply and demand, and awareness of how their systems and assets may be identified as critical infrastructure within the framework of emergency planning efforts developed by government. Government depends on the utilities and infrastructure owners to maintain situational awareness of potential vulnerabilities, provide key industry contacts, and understand how the inter-workings of the energy markets play a role in overall system design and how it will respond to impacts that may affect the wider community.

Activities within the scope of ESF 12 include the following:

- Collect, evaluate, and share information on energy system damage and provide estimations on the potential impacts of energy system outages within affected areas.
- Provide information, through coordination with local energy providers, concerning the energy restoration process, including priorities, projected schedules, percent completion information, geographic impact data, conservation efforts, energy forecasts, essential facilities, vulnerable populations, and other information as appropriate.
- Facilitate energy response efforts by activating legal authorities and by facilitating the receipt of waivers.
- Provide technical expertise to energy asset owners and operators, conduct damage assessments, and assist government and private sector stakeholders to overcome inherent challenges in restoring energy systems by providing appropriate supplemental state assistance and resources.
- Regular updates from energy providers to involved local, county, tribal, and state partners as necessary.

ROLES AND RESPONSIBILITIES

Primary Agency	Actions
AZ Department of Emergency and Military Affairs (DEMA) - Emergency Management	<ul style="list-style-type: none">• Support incident response activities consistent with statutory authority, incident scope, or other appropriate directives.• Lead coordination and information sharing efforts with the energy private sector and with local, county, tribal, and state authorities.• Determine and assess the nature, extent, potential impact, and duration of potential or actual energy shortages/emergencies.• Coordinate initial energy sector damage assessments (areas impacted, extent of damage, restoration priorities, and expected restoration times).• Communicate restoration priorities with energy providers. Providers may have predetermined priorities (hospitals, health care facilities, etc.).

	<ul style="list-style-type: none"> • Assist, local, county, tribal, and state authorities with requests for energy emergency response support. • Coordinate with ESF 6 - Mass Care to identify emergency shelter power restoration status/needs. • Recommend specific energy conservation measures for state agencies to the Governor's Office, including an Emergency Declaration requiring mandatory reductions in state energy usage and recommendations for reduced energy usage for public and private building owners and tenants. • Coordinate public information for elected officials, the media, and the public concerning energy emergency conditions, state response and recovery operations and federal support and assistance programs.
Support Agencies	Actions
AZ Corporation Commission (ACC)	<p>Office of Pipeline Safety</p> <ul style="list-style-type: none"> • Serve as the State safety authority for Arizona's natural gas and hazardous liquid pipelines and liquefied natural gas facilities. • Provides oversight and enforcement to ensure the safe, reliable, and environmentally sound operation of the state's pipeline transportation system.
AZ Department of Administration (ADOA)	<ul style="list-style-type: none"> • Monitor and communicate routine energy consumption at state facilities. • Implement conservation measures for the state vehicle fleet, building/facility energy consumption, and other alternate state government workforce conservation of energy.
AZ Department of Agriculture (AZDA)	<ul style="list-style-type: none"> • Track the impact of energy shortages on the agricultural community. • Assist agricultural, dairy, and produce processors/distributors in obtaining generators and fuel supplies to support the continued flow of food to the community. <p>AZ Division of Weights and Measures (ADWM)</p> <ul style="list-style-type: none"> • Coordinate the collection of fuel supply information from energy facilities necessary for the evaluation and preparation of temporary waivers from federal air quality standard requirements. • Provide for state enforcement discretion of fuel quantity standards following the issuance of an EPA waiver.
AZ Department of Environmental Quality (ADEQ)	<ul style="list-style-type: none"> • Respond to requests from energy facilities or local, county, tribal, and state authorities regarding temporary waivers for petroleum products from federal air quality standard requirements of the Clean Air Act during energy shortages. • Coordinate the submittal of temporary waiver requests to EPA.
AZ Department of Public Safety (AZDPS)	<ul style="list-style-type: none"> • Plan for and coordinate security for critical facilities, critical infrastructure, vital energy supplies, and response personnel. • Identify and communicate threats to specific energy facilities. • Enforce energy shortage mitigation measures as required, including increased enforcement of posted speed limits, price gouging, etc.

AZ Department of Transportation (ADOT)	<ul style="list-style-type: none">• Provide transportation infrastructure situational awareness and planning and recovery information to local, county, tribal, and state authorities and response organizations.• Assist energy facilities, local, county, tribal, and state authorities with requests for special permits, waivers, and approvals for motor carriers moving energy response support materials, including implementing Emergency Operations Provision R17-6-112.• Coordinate technical assistance in identifying and arranging appropriate types of transportation into affected areas and accessible routes (including debris removal).
All State Agencies	<ul style="list-style-type: none">• Maintain lists of available energy resources (electrical, petroleum, natural gas, propane, coal) critical to the operation of state facilities.• Coordinate with the SEOC and energy providers to prioritize the restoration of service to state facilities based on operational criticality.• Coordinate temporary facility repairs, the use of alternate energy sources, and other continuity measures until permanent energy sources can be restored.• Direct requests for assistance to the appropriate support agencies.• Provide updates on the status of mission assignments to ESF 5 - Emergency Management and other external entities.• Maintain contact with predetermined vendors in conjunction with ESF 7 - Logistics for petroleum fuel procurement and delivery.

INTRODUCTION

Purpose

Emergency Support Function (ESF) 13 – Public Safety integrates state public safety and security capabilities and resources to support the full range of law enforcement incident management activities associated with potential or actual incidents of statewide or national significance.

ESF 13 supports county, local and tribal authorities, and coordinates other state and federal agency efforts in order to:

- Describe law enforcement measures provided by the state in support of local governments during an emergency/disaster.
- Describe policies and procedures for obtaining federal assistance.

Scope

- Provides a mechanism for coordinating and providing state-to-state; state support to tribal and local authorities; and/or support to other ESFs, consisting of law enforcement, public safety, and security capabilities and resources during potential or actual incidents requiring a coordinated federal response.

- ESF 13 capabilities support incident management requirements including, but not limited to, force and critical infrastructure protection, security planning and technical assistance, technology support, and general law enforcement assistance in both pre-incident and post-incident situations. ESF 13 is activated in situations requiring extensive public safety and security and where local, county, tribal, and state government resources are overwhelmed or are inadequate, or for state to state support or in pre-incident or post-incident situations that require protective solutions or capabilities unique to the state government.
- Provides resources during potential or actual emergencies/disasters.
- Establishes the roles and responsibilities of state agencies involved in law enforcement activities during an emergency/disaster.

ROLES AND RESPONSIBILITIES

Primary Agency	Actions
AZ Department of Public Safety (AZDPS)	<ul style="list-style-type: none"> • Deploy a representative to the SEOC. • Assess the need for ESF 13 resources and coordinate response assistance and support in close cooperation with local, county, and tribal authorities and AZDPS field elements. • May convene support agencies in a meeting or by conference call to coordinate state public safety and security assistance efforts.
Support Agencies	Actions
AZ Department of Corrections (ADC)	<ul style="list-style-type: none"> • Identify specific ADC correctional facilities that may require evacuation by custody level, and coordinate equipment, evacuation routes, and alternate/shelter facilities. • Plan for care and security of ADC evacuated inmates. • Identify specific ADC correctional facilities that may require Defend in Place strategies to be incorporated based on custody level and/or location. • Plan for care and security of those inmates that remain in ADC correctional facilities that are identified as Defend in Place based on available resources. • Provide assistance to impacted local/county law enforcement agencies in the evacuation/sheltering of jailed inmates as requested and as available.
AZ Department of Emergency & Military Affairs (DEMA) - AZ National Guard (AZNG)	<ul style="list-style-type: none"> • Assist with law enforcement activities. • Prevent looting in evacuated areas. • Provide interoperability communications links to multiple agencies.
AZ Department of Transportation (ADOT)	<ul style="list-style-type: none"> • Establish and execute traffic control plans to support emergency operations. • Support state and local government activities with law enforcement personnel and equipment resources as requested and available.

AZ Department of Agriculture (AZDA) AZ Department of Economic Security (ADES) AZ Department of Gaming (ADG) AZ Department of Insurance (ADOI) AZ Department of Liquor Licenses & Control (ADLLC) AZ Department of Revenue (ADOR) AZ Game & Fish Department (AZGFD) AZ State Parks (ASP)	<ul style="list-style-type: none"> • Support state and local government activities with law enforcement personnel and equipment resources as requested and as available.
Federal Bureau of Investigation (FBI)	<ul style="list-style-type: none"> • Oversee implementation of ESF 13 at the federal level. • Identify and coordinate federal resources as requested by state government units during operation.
Local Law Enforcement (LLE) Tribal Police (TP)	<ul style="list-style-type: none"> • Provide public safety functions utilizing law enforcement resources. • Develop mutual aid procedures with adjacent law enforcement agencies and participate in the state Master Mutual Aid Compact.
University Police Departments (ASU, UA, NAU)	<ul style="list-style-type: none"> • Provide public safety functions utilizing law enforcement resources. • Utilize mutual aid procedures with adjacent law enforcement agencies and participate in the state Master Mutual Aid Compact.
Other Federal Departments and Agencies	<ul style="list-style-type: none"> • Large areas of the state remain under the jurisdiction of the Federal Government, i.e., Department of Defense, Department of the Interior (BIA, BLM, NPS), and Department of Agriculture. • Federal agencies will provide primary law enforcement activities and coordination on federal lands.

INTRODUCTION

Purpose

Emergency Support Function (ESF) 14 – Recovery provides an overview of state recovery operations during and after an emergency or disaster. This Annex also provides information on state responsibilities and resources in short and long-term operations and identifies federal

disaster assistance programs which may be available to support the state and its citizens impacted by a disaster.

In addition to ESF 14, the state created and maintains the AZDRF which complements the NDRF. The purpose of both framework documents is to provide a structure and planning process for more complex or challenging events. Within the AZDRF, there are six RSFs: Community Planning and Capacity Building, Economic, Health and Social Services, Housing, Infrastructure, and Natural and Cultural Resources. The AZDRF and the associated RSF's will be activated when the event exceeds the resources and capability of ESF 14. RSF's are Appendices to this Annex and are activated within ESF 14 as needed to support recovery operations.

Scope

ESF 14 support may vary depending on the magnitude and type of incident and the potential for long-term and severe consequences. ESF 14 may provide coordination during large-scale or catastrophic incidents that require assistance to address significant long-term impacts in the affected area. ESF 14 takes the following into consideration:

- Short-Term Recovery - recovery that is immediate and overlaps with the response phase. It includes such actions as providing essential public health and safety services, restoring interrupted utility and other essential services, reestablishing transportation routes, and providing food and shelter for those displaced by a disaster. Although called "short-term," some of these activities may last for weeks or months.
- Long-Term Recovery - actions that enable disaster victims to begin the process of rebuilding their homes; replacing property; resuming employment; restoring businesses; permanently repairing, rebuilding, or relocating public infrastructure.
- Mitigation - activities that reduce losses to life, property, infrastructure, and resources resulting from the occurrence of natural or human-caused events. This reduces the community's vulnerability in ways that minimize the adverse impact of a disaster or other emergency situation. When there is an opportunity, mitigation occurs along with recovery.
- Recovery from an emergency, disaster, or terrorist incident may involve actions and resources from voluntary agencies, private sector, local jurisdictions, state and/or Federal Government to return the impacted communities to pre-disaster condition.
- Recovery assistance and support will vary depending on an assessment of incident impact(s), the magnitude and type of event, and the stage of recovery efforts.
- Recovery assistance and support may include Public Assistance (PA) to support political subdivisions, state agencies, Tribal Nations and certain private non-profit agencies and Human Services and Individual Assistance (IA), support to individuals, households and families.
- Recovery activities refer to actions that enable the process of rebuilding homes, replacing property, resuming employment, restoring businesses, permanently repairing, rebuilding, or relocating public infrastructure, and mitigating future disaster losses.
- Recovery activities also refer to state and federal government programs of assistance, support, and technical services that facilitate recovery actions such as federal grants and

loans for lodging, rent, repair, rebuild or replacement of homes, businesses, property and infrastructure, for technical assistance, education and public information.

- Mitigation after an emergency or a disaster incident will assist the local, county, tribal and state entities in reducing the future impact of hazards through projects and/or actions.

RECOVERY SUPPORT FUNCTIONS

The RSFs comprise the NDRF coordinating structure for key functional areas of assistance. Their purpose is to support local governments by facilitating problem solving, improving access to resources and by fostering coordination among agencies, non-governmental partners and stakeholders.

The RSFs bring together the core recovery capabilities of departments, agencies and other supporting organizations, including those not active in emergency response to focus on community recovery needs. The RSFs are organized into six manageable components and through the RSFs, relevant stakeholders and experts are brought together during steady-state planning and when activated post-disaster to identify and resolve recovery challenges. RSFs and stakeholders organize and request assistance and/or contribute resources and solutions. Together, these RSFs help facilitate local stakeholder participation and promote intergovernmental and public-private partnerships.

The six RSFs are:

- Community Planning and Capacity Building
- Economic
- Health and Social Services
- Housing
- Infrastructure Systems
- Natural and Cultural Resources

ROLES AND RESPONSIBILITIES

Primary Agency	Actions
AZ Department of Emergency & Military Affairs (DEMA) - Emergency Management	<ul style="list-style-type: none">• Establish recovery and mitigation functions and staffing within SEOC according to the SEOC SOPs.• Coordinate state planning activities including immediate, short and long-term recovery and mitigation planning.• Convene meetings to implement ESF 14.• Coordinate drafting and publication of ESF 14 action plans and procedures.• Represent ESF 14 at interagency planning meetings.• Serve as primary representative at the JFO and ensures appropriate participation from Primary and Support Agencies after incidents.

	<ul style="list-style-type: none"> • Receive and evaluate requests for recovery assistance. • Coordinate state recovery and mitigation assistance and activities with county and federal agencies. • Perform and evaluate information from damage assessments. • Request direct federal assistance if necessary. • Provide training and technical assistance for local, county, state, and voluntary organizations tasked in the support of the recovery effort. • Administer state and Federal Public Assistance (PA) program(s) and Federal mitigation assistance programs(s). • Conduct Hazard Mitigation Grant Program (HMGP) Applicant Briefings in disaster areas. • Coordinate activities needed to administer and manage the HMGP until projects have been completed and close-out procedures conducted. • Review and update the HMGP Administrative Plan. • In the event of a Federal declaration, coordinate with FEMA to identify a mitigation strategy specific to the disaster. • Co-administer FEMA's Individual and Household program. • Assist in victim confidentiality and release of information for recovery services, benefits eligibility and notification of relatives. • Coordinate the transition of mass care operations to recovery basing decisions on available knowledge and the availability of resource. • Coordinate the transition of housing and human services operations to long-term recovery and unmet needs support, basing decisions on available knowledge and the availability of resource. • Act as liaison between all agencies listed in this Annex.
Support Agencies	Actions
AZ Attorney General (AZAG)	<ul style="list-style-type: none"> • Represent state agencies in response to alleged discriminatory practices. • Investigate complaints of consumer fraud.
AZ Commission for the Deaf & Hard of Hearing (ACDHH)	<ul style="list-style-type: none"> • Assist in operations where persons with access and functional needs are encountered during an emergency/disaster as requested and as available. • Provide technical assistance in response to the recovery needs of deaf and/or hard-of-hearing individuals.
AZ Department of Administration (ADOA)	<ul style="list-style-type: none"> • Provide adequate insurance coverage on state buildings. • Process risk management claims from applicants. • Submit a Request for Public Assistance (RPA) through DEMA.
AZ Department of Agriculture (AZDA)	<ul style="list-style-type: none"> • Analyze the impact on the agricultural sector and recommend needs for state assistance. • Advise agricultural victims of guidelines for available assistance. • Coordinate with the U.S. Department of Agriculture (USDA), and the University of Arizona - Cooperative Extension Services (CES) to provide advice on recovery assistance.

	<ul style="list-style-type: none"> • Determine the type and amount of disaster assistance being administered by USDA agencies. • Provide technical assistance for farmers with the CES.
AZ Department of Economic Security (ADES)	<ul style="list-style-type: none"> • Coordinate with the Emergency Services Coordinator. • Administer the disaster Unemployment Program and the Disaster Food Stamp Program.
AZ Department of Education (ADE)	<ul style="list-style-type: none"> • Notify school districts that public elementary and secondary school facilities are eligible for disaster assistance when an event is declared a State or Federal Emergency or major disaster. • Coordinate with the US Office of Education, Division of School Assistance in Federally Affected Areas in the administration of Section 7(a) of PL 81-874. This law provides assistance for payment of increased current operating expenses and replacement of lost revenues to elementary and secondary schools struck by a major disaster.
AZ Department of Environmental Quality (ADEQ)	<ul style="list-style-type: none"> • Facilitate and coordinate the environmental recovery. • Ensure compliance with the Public Works and Economic Development Act of 1965, as amended and Title II of the Federal Water Pollution Control Act, as amended. • Ensure all applicable state laws and regulations regarding water quality and related matters are adhered to protect health and the environment.
AZ Department of Forest and Fire Safety (DFFM)	<ul style="list-style-type: none"> • Maintain access to Supplemental Dispatch for documentation in support of qualifying and subsequent approval of applicant PW submittals for disaster cost reimbursement.
AZ Department of Health Services (ADHS)	<ul style="list-style-type: none"> • Serve as the recovery lead agency for health related emergencies. • Coordinate crisis-counseling services with local, county, state, and voluntary mental or behavioral health organizations. • Apply for disaster repair/reconstruction reimbursement for restoring ADHS health and medical facilities.
AZ Department of Housing (ADOH)	<ul style="list-style-type: none"> • Coordinate the housing referral system for displaced households • Provide one-time move-in assistance (rent and security deposit) for displaced households unable to return home within a reasonable amount of time, with no other means for relocating, if available. • Administer available grants and/or loans to local governments, nonprofits or tribal entities seeking to rebuild or repair housing units. • Administer available grants to assist local governments within the rural counties to mitigate potential hazards that threaten housing units in low to moderate income areas. • Provide technical assistance to local governments and others to rebuild communities or mitigate potential housing-related disasters. • Work with HUD, local public housing authorities and other eligible participants to access/disburse federal resources available in disasters. • Provide code information for installation of manufactured homes in coordination with AZDPS, ADOA and HUD.

AZ Department of Insurance (ADOI)	<ul style="list-style-type: none"> • Monitor the activities of organizations involved in handling insurance claims and investigate complaints against insurance companies or licenses. • Indicate types and extent of insurance that are considered reasonable by the State Insurance Commissioner for federal assistance and permanent repair or replacement of property damaged.
AZ Department of Public Safety (AZDPS)	<ul style="list-style-type: none"> • Coordinate the escort of manufactured temporary housing into the disaster area. • Coordinate road blocks on state and federal highways and provides for traffic control assistance.
AZ Department of Real Estate (ADRE)	<ul style="list-style-type: none"> • Investigate complaints against real estate licensees and developers. • Have real estate consumer guides available for members of the public.
AZ Department of Revenue (ADOR)	<ul style="list-style-type: none"> • Provide tax relief advice to disaster victims, if available. • Make a determination in coordination with the GAR as to the finding of a substantial loss of revenue resulting from a major disaster. Local government may apply for a Community Disaster Loan.
AZ Department of Transportation (ADOT)	<ul style="list-style-type: none"> • Request assistance from the Emergency Relief Program through the Administrator, Federal Highway Administration, for the repair/reconstruction of highways within the Federal-Aid System. • Permanently repair/reconstruct highways not in the FAS. • Contract and coordinate with the SCO for preparation and submission of PA and reimbursement request for work performed or contracted pursuant to PL 93-288, as amended. • Assist in damage assessment and recovery operations.
AZ Department of Water Resources (ADWR)	<ul style="list-style-type: none"> • Assist in determining costs of restoring drainage and flood control facilities. • Coordinate with the U.S. Army Corps of Engineers and other federal agencies in flood control projects. • Assist in the outreach for flood insurance, including to repetitive loss properties, as it affects input to the new ESF.
AZ Game & Fish Department (AZGFD)	<ul style="list-style-type: none"> • Assist with environmental assessments following a disaster as requested.
AZ Health Care Cost Containment System (AHCCCS)	<ul style="list-style-type: none"> • Provide backup support for staff as requested by ADES or ADHS. • Work to financially compensate those providers who took care of AHCCCS eligible members.
AZ Office on Tribal Relations	<ul style="list-style-type: none"> • Act as liaison between the state and federal governments and the impacted tribes.

AZ Registrar of Contractors (AZROC)	<ul style="list-style-type: none"> • Receive and investigate complaints against contractors who do recovery repairs and restoration construction. • Provide information of licensed contractors in Arizona. • Provide construction inspectors to assess damaged and/or repaired structures for safety and information on how to acquire a contractor for disaster repairs.
AZ State Parks (ASP)	<ul style="list-style-type: none"> • Coordinate with the SCO to ensure applications for federal disaster relief funds are in compliance with the Nat'l Historic Preservation Act. • Advise the Director, DEMA-EM, of damage to historic buildings. • Apply for reimbursement for repair/rehabilitation of event damaged public facilities under State Parks jurisdiction utilizing the PA program.
AZ State Bar Association (SBA)	<ul style="list-style-type: none"> • Form a committee to provide legal assistance to victims of emergencies/disasters.
The Salvation Army (SA)	<ul style="list-style-type: none"> • Collaborate with other AzVOAD members and faith based organizations to: <ul style="list-style-type: none"> ○ Form recovery teams, unmet needs committees or long-term recovery teams ○ Establish fiduciary agent for donated recovery funds ○ Solicit disaster survivors for registration and referral ○ Keep meetings and financial accountability open to public scrutiny ○ Establish case management procedure ○ Solicit donations from team member agencies, public and private ○ Provide needed assistance –unmet needs ○ Provide clean up and debris removal supplies and services • Participate in donations management activities to: <ul style="list-style-type: none"> ○ Utilize remaining donations not distributed in response phase of disaster ○ Utilize Aidmatrix to process donations and publish needs to donor level ○ Provide logistics management for in-kind goods collection, sorting, storage and distribution facilities • Provide ongoing emotional and spiritual care to disaster survivors through use of individual counselors and crisis intervention teams • Provide direct individual and family assistance with goods and financial assistance.

INTRODUCTION

Purpose

Recovery Support Function (RSF) 1 - Community Planning and Capacity Building (CPCB) supports and helps builds recovery capacities and community planning resources of local, county, tribal, and state governments. This RSF focuses on enhancing governmental capacities to

effectively plan for, manage and implement disaster recovery activities in large, unique, or catastrophic incidents.

Scope

In Arizona, the CPCB RSF will focus on increasing recovery planning efforts across the state by working with the whole community in building capacity within the other five RSFs listed in the AZDRF.

The Community Planning and Capacity Building RSF serves as the planning and coordination group of the RSF's. Additionally, the CPCB can provide technical assistance to impacted jurisdictions that may be lacking in a government component of recovery such as, zoning and planning, building inspection, and permitting. The CPCB RSF has the responsibility to maintain, update, and operationalize the AZDRF.

Certain state departments, agencies, counties, and NGOs are expected to provide specific services in response to an emergency. These services are outlined in the five additional RSFs (Economic, Housing, Health and Social Services, Infrastructure, Natural and Cultural Resources).

The CPCB RSF recognizes the primacy of affected local, county, and tribal governments and the private sector in defining and addressing risk reduction and long-term recovery priorities and as such, should share a joint planning role and effort with the local impacted government to craft the recovery activities and priorities.

The CPCB RSF should look for mitigation opportunities and review other RSF projects and proposals and ensure mitigation measures have been considered and implemented, if practical. The DEMA Mitigation Branch should work with stakeholders to identify mitigation programs, such as FEMA's Hazard Mitigation Assistance Program, and 404 and 406 Mitigation programs, and opportunities outside of FEMA programs.

COMMUNITY PLANNING & CAPACITY BUILDING

Agencies	Actions
AZ Department of Emergency and Military Affairs (DEMA) - Emergency Management	<ul style="list-style-type: none">• Maintain communication through the recovery process between local, county, tribal, and state governments and all other partners to ensure on-going dialogue and information sharing.• Identify the range and significance of the disaster's effects on the communities in the impacted areas.• Coordinate recovery planning technical assistance and resources for the impacted area's governments. This may include:<ul style="list-style-type: none">○ Recovery planning○ Hazard mitigation planning○ Continuity of operations planning○ Emergency operations planning○ Future development planning• Develop community-focused technical assistance teams for uniquely or heavily impacted communities and/or tribes.

	<ul style="list-style-type: none">• Coordinate the application and treatment of hazard mitigation and sustainability principles in recovery planning efforts.• Aid local, county, and tribal governments to identify and integrate all affected stakeholders, including vulnerable populations, the Access and Functional Needs (AFN) community, and those with limited English proficiency into the public sector recovery plans and decision making process.• Maintain the AZDRF.
All Support Agencies	<ul style="list-style-type: none">• Provide resources and capabilities, as needed, in coordination with DEMA-EM to support the impacted area(s).

INTRODUCTION

Purpose

Recovery Support Function (RSF) 2 – Economic integrates state and federal resources to help local, county, and tribal governments and the private sector sustain and/or rebuild businesses and employment. This RSF is to work with impacted areas to develop economic opportunities that result in sustainable and economically resilient communities after large-scale and catastrophic incidents.

Scope

The Economic RSF has two primary purposes- one focuses on the restoration and sustainability of locally impacted businesses, and the other relates to the overall health and vitality of the impacted community's economic base. A community relies on economic stability and vitality to function, and most communities rely on the business community to contribute to this end. A disruption in services or goods provided by businesses can further stress residents and create a strain on recovery efforts. Recovery of a community's business sector shows citizens that recovery efforts are underway and creates a sense of success when citizens see businesses re-opening and people returning to work.

Disasters can have tremendous impacts on businesses. The U.S. Small Business Administration estimates that 25% of businesses impacted by a disaster do not re-open following an incident. Other sources state this figure is even higher. The closing of local and even national chain

businesses has cascading impacts on a community that is attempting to recover. Some of these impacts include job loss, lower tax revenue, a reduction in goods and services in the community, and a long standing sense of loss in the community.

When a community is recovering from disaster, one strategy that can be implemented to support economic recovery in that community is to purchase recovery supplies from local businesses, not nationwide chain stores. The impact of shopping at local businesses magnifies the returns to that community. Local businesses often rely on other local business for their operational support. Local businesses contribute a larger portion of taxes to the local government. Local businesses are often more inclined to support local charities. By purchasing disaster recovery supplies from local businesses, a significantly larger portion of the spending will be returned and invested in that community and following a disaster those dollars are a tremendous asset.

From the local government perspective, even if the government is not physically impacted by an incident, the fiscal impacts of a disaster can linger for years. Destroyed homes will lower property tax revenue, destroyed businesses will decrease sales tax revenue and often disaster will cause unexpected expenditures for the local government. By focusing on restoring the economy as a whole, impacts to local governments will be decreased, allowing the overall recovery process to continue more smoothly.

This RSF should join federal and state resources to work with local economic engines, chambers of commerce, local tourism promoters, and any other local relevant stakeholder to jointly create an economic recovery plan that focuses on rapid recovery, and long-term economic sustainability.

ECONOMIC RECOVERY PROGRAMS

Agencies	Programs
Operation HOPE	<p>HOPE Coalition America</p> <p>The only financial emergency preparedness and recovery service in the country. Through partnerships with industry leaders in a wide range of industries spanning banking, financial services, insurance, social and community services, financial and economic assistance is provided to those affected by natural disasters. The Crisis Hotline and on-site counseling centers assist clients in their financial recovery from natural disasters, foreclosures, and other emergencies. Also provides pre-disaster planning.</p> <p>HOPE Financial Dignity Centers</p> <p>A network of community-based locations providing financial resources, literacy and counseling to people in underserved neighborhoods.</p> <p>Banking On Our Future</p> <p>Financial literacy training in a classroom environment.</p>

Small Business Administration (SBA)	<p>Funding and Technical Assistance</p> <p>Provides loans for property damages to non-farm businesses of all sizes and private nonprofit organizations; provides Economic Injury Disaster Loans to eligible small businesses and private nonprofit habitats and to create mechanisms for the mitigation of damages. Provides technical assistance regarding program eligibility, application processes and project requirements. Provides counseling and other technical assistance to small businesses and entrepreneurs. Promotes small business access to capital through loans, investments, etc., aimed at sustaining businesses and encouraging entrepreneurial applications.</p>
U.S. Department of Agriculture (USDA)	<p>Rural Business Enterprise Program (RBEG)</p> <p>Provides grants for rural projects that finance and facilitate development of small and emerging rural businesses help fund distance learning networks, and help fund employment related adult education programs. To assist with business development, RBEGs may fund a broad array of activities. The RBEG program is a broad based program that reaches to the core of rural development in a number of ways.</p> <p>Rural Economic Development Loan and Grand (REDLG)</p> <p>Provides funding to rural projects through local utility organizations. Under the REDLoan program, USDA provides zero interest loans to local utilities which they, in turn pass through to local businesses (ultimate recipients) for projects that will create and retain employment in rural areas. The ultimate recipients repay the lending utility directly. The utility is responsible for repayment to the Agency. Under the REDGrant program, loans are made to projects that will create or retain rural jobs.</p> <p>Technical Assistance: Community & Economic Development Programs (CEDP)</p> <p>Administers programs and initiatives that promote self-sustaining, long-term economic and regional development in rural areas. The programs demonstrate how every rural community can achieve self-sufficiency through innovative and comprehensive strategic plans developed and implemented at a grassroots level. The programs stress continued local involvement and decision making which is supported by partnerships among private, public and nonprofit entities.</p> <p>Technical Assistance: Cooperative Programs</p> <p>Cooperatives market and distribute agricultural products and supplies and provide other rural services and needs. Programs promote the understanding and use of the cooperative form of business. Cooperative Programs' technical assistance program helps agricultural producers and rural residents form new cooperatives and improve the operations of existing cooperatives facing specific problems or challenges. This service is available to existing rural cooperatives and groups of rural residents interested in forming a cooperative.</p>
U.S. Department of Commerce (DOC) - Bureau of Industry & Security	<p>Technical Assistance: Defense Industry</p> <p>Administers the authority and priorities of the Defense Production Act through the Defense Priorities and Allocations System to implement priorities and allocation provisions for industrial resources.</p>

U.S. Department of Commerce (DOC) - Economic Development Administration	<p>Grants/Funding Program</p> <p>Provides funding through competitive grants for economic recovery projects.</p>
U.S. Department of Commerce (DOC) - Economics & Statistics Administration/Census Bureau	<p>Technical Assistance: Demographics/Data</p> <p>Prepares pre-disaster demographic and economic baseline data for regions impacted by disasters during Economic RSF activations, as needed.</p>
U.S. Department of Commerce (DOC) - International Trade Administration	<p>Technical Assistance: Tourism and Foreign Markets</p> <p>Provides technical assistance to businesses for accessing foreign markets to encourage outside investment. Provides technical assistance and information regarding tourism consequences.</p>
U.S. Department of Commerce (DOC) - Minority Business Development Agency	<p>Funding and Technical Assistance: Minority Business</p> <p>Provides direct financial assistance, market access and technical assistance for minority business.</p>
U.S. Department of Commerce (DOC) - National Oceanic & Atmospheric Administration (NOAA)	<p>Grants/Technology: Ecosystem-dependent economies</p> <p>Provides grants and technologies to spur the recovery of ecosystem-dependent economies, to restore economically important habitats and create mechanisms for the mitigation of damages.</p>
U.S. Department of Commerce (DOC) - National Institute of Standards & Technology (NIST)	<p>Technical Assistance: Manufacturing Sector</p> <p>Administers the Manufacturing Extension Partnership to work with small and mid-sized US manufacturers to help create and retain jobs, increase profits, and save time and money.</p>
U.S. Department of Health & Human Services (HHS)	<p>Technical Assistance: Health Services Sector</p> <p>Provides technical assistance regarding program eligibility, application processes and project requirements for HHS programs as applicable under existing authorities. Provides assessment information regarding the consequences on the health and social services sector in an affected community. Provides technical assistance on the economic consequences to low- or moderate-income disaster survivors.</p>
U.S. Department of Homeland Security (DHS) - Federal Emergency Management Agency (FEMA)	<p>Assessments/Technical/Financial Assistance: Losses</p> <p>Provides economic damage assessment information regarding the insured and uninsured losses, economic recovery issues and other data sources gathered during federal response efforts. Provides technical and financial assistance regarding program eligibility, application process and project requirements.</p>

U.S. Department of Housing (DOH)	Grants/Financial and Technical Assistance and Assessments Provides flexible grants to help cities, counties and states recover from presidentially declared disasters, especially in low-income areas. Provides technical and financial assistance regarding program eligibility, application processes and project requirements. Provides economic damage assessment information regarding the economic consequences of the loss of housing stock, the housing market and community development issues, from its network of regional and field resources.
U.S. Department of Interior (DOI)	Assessments/Technical/Financial Assistance: Natural & Cultural Assets Provides technical and financial assistance regarding program eligibility, application processes and project requirements. Provides economic damage assessment information on the natural and cultural assets throughout the country, through its networks and available stakeholders.
U.S. Department of Labor (DOL)	Assessments/Technical/Financial Assistance Provides technical and financial assistance regarding program eligibility, application processes and project requirements. Provides economic damage assessment information on the consequences to the local workforce, labor markets and worker retraining needs.
U.S. Department of the Treasury (DOTR)	Technical Assistance Information: Taxes Provides financial literacy and tax-related assistance through education, outreach and tax return preparation assistance. Provides program data for use in economic damage assessments. Facilitates the operation of the Financial and Banking Information Infrastructure Committee, including the identification of sector impacts and resource requirements.
U.S. Environmental Protection Agency (EPA)	Technical/Financial Assistance Provides technical assistance to communities developing plans and policies to coordinate land use and infrastructure investments for a sustainable economic recovery. Provides financial support for clean-up and reuse of contaminated property.

INTRODUCTION

Purpose

Recovery Support Function (RSF) 3 - Health and Social Services (HSS) is for both government and voluntary agencies assisting locally-led recovery efforts in the restoration of the public health, health care, and social services networks to promote the resilience, health, and well-being of affected individuals and communities.

Scope

As the name implies, the Health and Human Services RSF focuses on two components, the health care system and non-medical individual and family needs. While the two aspects are related, the services they provide and the partners necessary to complete the missions are quite broad and require the participation and services of many agencies. When coordinating this RSF, it is necessary that both health-related and social service needs are being addressed.

The purpose of the health care component of this RSF is to restore the health care system as quickly and as effectively as possible in order to ensure that people are receiving vital health services. It is important to note that the “health care system” spans a wide range of health care providers, not solely hospitals. The health care system includes, but is not limited to, behavioral health providers, long term care facilities, medical equipment suppliers and service providers, health care workers, outpatient care centers, and environmental health impacts.

The human services portion of this RSF builds and expands on the short to intermediate needs addressed by the Human Services Branch within the DEMA-EM Recovery Section and the Individual Assistance Program, when awarded by FEMA. This RSF can continue the work initiated by the case management process in order to meet client's long-term needs and any other more challenging recovery related needs.

Additionally, this RSF has the lead role ensuring access and functional needs (AFN) are adequately addressed and these populations are included in recovery planning efforts. While each of the six RSFs should independently consider AFN in all aspects of their efforts, the Health and Human Services RSF incorporates AFN experts as standing support members; as such, this RSF can lend support to other RSFs should they need assistance with AFN concerns.

HEALTH AND SOCIAL SERVICES RECOVERY PROGRAMS

Agencies	Programs
AZ Healthcare Cost Containment Services (AHCCCS) - BHS COOP	Crisis Counseling Professionals trained in stress recognition and management techniques assist emergency responders and disaster victims with immediate crisis counseling, critical incident stress management (CISM), and referral to ongoing behavioral health services. Enrollment and Penetration Report This is a monthly report that tells how many people are enrolled in each Tribal and Regional Behavioral Health Authority. During a disaster recovery period this data is used to determine how many people in a given region are enrolling for behavioral health services. We could measure before and after the event to monitor any change enrollment. Crisis Call Volume The number of behavioral health crisis calls are monitored and recorded. This is useful in measuring the behavioral health impact to a community. Crisis Utilization Report This includes the number and types of behavioral health crisis services provided by the Regional Behavioral Health Authority or Providers.
AZ Department of Administration (ADOA)	Fleet Management The Fleet Management Office manages approximately 1,800 vehicles that are leased to state agencies. Maintenance on these vehicles is performed by ADOT and regular preventative maintenance schedules are kept. Material Management-Surplus Property Usable and necessary surplus materials are distributed for public purposes to a state governmental unit or a political subdivision. Building Management Manages the ADOA Building System and private space leasing program. Also provides custodial, grounds, and physical security, and repair and maintenance on ADOA's owned or leased/managed buildings.

AZ Department of Economic Security (ADES)	<p>Unemployment Insurance (UI)</p> <p>Provides monetary benefits to eligible claimants who lose their jobs by no fault of their own.</p> <p>Disaster Nutrition Assistance Program (DNAP)</p> <p>Nutrition Assistance, also known as Supplemental Nutrition Assistance Program (formally known as Food Stamps). Provides Nutrition Assistance benefits for those impacted by declared disasters.</p>
AZ Department of Health Services (ADHS)	<p>Epidemiology and Surveillance</p> <p>The Epidemiology Section contributes to activities in all phases of a disaster. Specific disaster-related activities in which epidemiology methods and tools may be significantly utilized include:</p> <p>Public Health Surveillance: during a disaster it is important to conduct surveillance to determine the extent and scope of the health effects on the affected populations. Surveillance is the systematic collection, analysis, and interpretation of deaths, injuries, and illnesses which enables public health to track and identify any adverse health effects in the community. It allows public health to assess the human health impacts of a disaster and evaluate potential problems related to planning and prevention. Disease surveillance can help prevent the likelihood of outbreaks through early detection and response. Additionally, conducting health surveillance allows for the ability to make informed decisions about action items such as allocating resources, targeting interventions to meet specific needs, and planning future disaster response. Public health surveillance may be conducted in hospital emergency departments, evacuation centers, special needs shelters, clinics and from surveys of households in affected communities.</p> <p>Tracking and Registries: identifies long-term consequences of a disaster to inform the need for ongoing care or public health measures and developing health education and disease prevention measures. Registries are used to identify people in the at-risk cohort and gather names and contact information while the response and recovery are underway. The registries can then be used to estimate exposures and provides a guide for who should be screened and tracked possible long-term effects.</p> <p>Community Assessment for Public Health Response (CASPER): public health epidemiology can provide needs assessments to help measure the post-disaster health status and basic needs of the affected community. The primary purpose is to identify immediate needs among impacted communities. The information can provide situational awareness and improved actionable information for emergency response leaders and local health officials. CASPER can provide identification of community needs to guide public health efforts (e.g., health problems); identification of community knowledge, beliefs and practices regarding public health issues; establishment of priorities for decision-makers through household-based population estimates; evaluation of the effectiveness of public health activities (i.e., are needs being met, is the community receiving appropriate messaging, are implemented programs successful?).</p> <p>D. Health messaging to providers and local health departments.</p>

	<p>Smoke-Free Arizona Program</p> <p>The Smoke-Free Arizona Program is required to provide compliance assistance and conduct inspections at enclosed public places and places of employment throughout Arizona to ensure compliance with the Smoke-Free Arizona Act and Rules. Inspections in response to complaints alleging violations of the Smoke-Free Arizona Act and Rules must be conducted within 15 days of a complaint being received by the Program. ADHS Smoke-Free Arizona Program staff and delegated AZ County Health Department Smoke-Free Arizona Program staff are authorized to conduct inspections on behalf of ADHS.</p>
AZ Department of Health Services (ADHS) - BNPA	<p>Women, Infants, and Children (WIC)</p> <p>Provides nutritious foods, nutrition education (including breastfeeding promotion and support), and referrals to health and social services to participants at no charge.</p> <p>Commodity Supplemental Food Program (CSFP)</p> <p>Food boxes include a variety of foods, such as infant formula and cereal, nonfat dry and ultra-high temperature fluid milk, juice, farina, oats, ready-to-eat cereal, rice, pasta, peanut butter, dry beans, canned meat or poultry or fish, and canned fruits and vegetables.</p>
AZ Department of Health Services (ADHS) - Immunization Program Office	<p>Immunization Services</p> <p>State immunization contact to county health departments, Indian Health Services/tribal agencies, community and rural health centers, fire departments, schools, childcare facilities and other public and private immunization programs. Immunization/vaccine direction, guidance and technical assistance to enhance service delivery of immunizations in order to raise immunization coverage levels for all Arizona citizens.</p> <p>AZ State Immunization Information System (ASHS)</p> <p>Statewide immunization registry. A system for the electronic capture, secure storage and confidential management of immunization data and information. These data can be used to assess individuals' immunization status; assess coverage levels of communities, regions and state; and track the administration and uptake of vaccines. This would be important data in a vaccine preventable disease outbreak.</p> <p>Immunization Assessment Section</p> <p>Assesses immunization coverage rates in schools and day care facilities on an annual basis. Assesses annual CDC-provided data, including National Immunization Survey results for Arizona and influenza vaccine uptake. Assesses annual BRFSS data on child immunizations. These current data used may not be particularly timely for an outbreak or emergency response and often cannot get down below the state level can provide context. Also, this section can provide these data and evaluate any other ad hoc data available to assess coverage levels statewide.</p> <p>Vaccine Center</p> <p>AZ point-of-contact for Federal "Vaccines for Children" Program; Federal 317 vaccine; and when available, state-purchased vaccine. Procure, store, manage and distribute vaccine statewide.</p>

AZ Department of Health Services (ADHS) - Bureau of EMS and Trauma System	Regulatory Functions License, inspect and, as necessary investigate trauma centers, air and ground ambulance companies, EMS medical control hospitals, EMS training programs and emergency medical care technicians. System Development Functions Aggregate, evaluate and report on EMS and trauma system data. Facilitate the activities of three statutory advisory bodies; promote EMS and trauma system development.
AZ Department of Health Services (ADHS) - PHS/EDC/ODIS	Aids Drug Assistance Program (ADAP) ADAP provides medications to qualifying clients. ADAP ceases to provide drugs when available funding is exhausted or terminated. ADAP is not an entitlement program and does not create a right to assistance absent available funding.
AZ Department of Health Services (ADHS) - Office of Vital Records	Vital Records - birth and death certificate issuance The Office of Vital Records (OVR) can issue certified copies of birth and death records for events that occurred in Arizona. The OVR can provide some assistance to individuals needing quick access to a birth record from another state if there is a significant disaster that necessitates assistance.
AZ Department of Health Services (ADHS) -Office of Environmental Health	Environmental Toxicology Program Assists communities and citizens to understand potential public health effects from known or suspected environmental exposures. Food Safety and Environmental Services To prevent and control human illness related to the transmission of infectious agents or toxic substances in food and water. In addition, works directly with county environmental health offices with public health sanitation in hotels and motels, trailer coach parks, public and semi public swimming pools, children's camps, and behavioral health centers.

<i>American Red Cross (ARC)</i>	<i>Sundt Construction</i>

INTRODUCTION

Purpose

Recovery Support Function (RSF) 4 - Housing addresses disaster-related housing issues both prior to and following an event. To coordinate and facilitate the delivery of federal, state, private, and voluntary agency resources and activities to assist impacted communities in the rehabilitation and reconstruction of destroyed and damaged housing, whenever feasible, and development of other new accessible, permanent housing options.

Scope

The Housing RSF aims to identify and apply housing solutions that meet the needs of the whole community in incidents where the local resources have been exhausted. In order to facilitate this, the Housing RSF identifies relevant stakeholders in the housing sector that can be utilized during recovery efforts. The intent of this document is not to present a detailed, step by step recovery guide; rather to provide a list of potential resources and sources of knowledge that can be applied to specific incidents to address difficult recovery issues.

Housing of disaster survivors typically falls under three categories: temporary, intermediate, and permanent. Temporary housing consists of emergency sheltering operations and is normally coordinated and completed by ESF 6 (Mass Care); however, the components and players may transition into the Housing RSF. Intermediate housing issues relate to the period of time that individuals may be in transitional housing while awaiting repairs or reconstruction of their permanent home. Hotels, rental units, and travel trailers are examples of intermediate housing. Permanent housing refers to the individuals' or families' "new normal" housing unit. Projects that lead to permanent housing included housing repairs or total reconstruction of a home on the original site or new location.

The goal of the Housing RSF is to identify challenges at every phase of the housing sector's recovery and collectively craft recommendations and solutions that lead to a holistic recovery. Based on the recovery assessment, the State Disaster Recovery Coordinator will work with the primary agency to determine the housing related challenges the event may present. Following this determination, RSF agencies should consult one another to determine possible solutions to be presented to the impacted county or community for action.

HOUSING RECOVERY PROGRAMS

Agencies	Programs
American Red Cross (ARC) - Grand Canyon Chapter (GCC) - Southern Arizona Chapter (SAC)	Sheltering Assistance with emergency disaster caused needs including: disaster mass care sheltering and feeding; impact and damage assessment; disaster counseling; health related services; financial assistance for replacement of essential items; outreach services; disaster welfare information (connecting families after disaster); distribution of clean up supplies; communications-CBs-hams; disaster preparedness and training; first aid/CPR training. Non-disaster emergency services including: Armed Forces Emergency Services; Domestic Violence Services (Maricopa Co only); Health and Safety; Blood Services; Youth Services, and International Services.
AZ Community Action Association	Technical/Financial Assistance Trained volunteers in communication, housing (eviction prevention), and utility assistance. Can assist in applying for government aid.
AZ Department of Housing (ADOH)	Installation Program Regulate the installation of pre-1976 mobile homes, HUD manufactured homes, and residential and commercial factory-built buildings. In agreement with HUD to regulate the installation of HUD manufactured homes under the State Installation Program, inspectors inspect installation of home or building to current state approved plans. Housing Plan Review Authority over the manufacturing and installation of residential and commercial factory-built buildings in the state and for homes and buildings entering the state. Plan review and approval of: factory-built building plans; foundation and installation plans for factory-built buildings; foundation and installation plans for pre-1976 mobile homes and HUD manufactured homes going into a flood plain or being installed deviating from what is prescribed in the home's manufacturer installation manual, or from what's typical in HUD Installation Standards or State Rules. Rehabilitation Program Authority over the inspection of pre-1976 mobile homes entering the state or being moved. Pre-1976 mobile homes which fall in one of the three categories are required to be rehabilitated to increase the safety of the home for the tenant. No state authority over pre-1976 mobile homes with regards to the Rehabilitation Program, however local jurisdictions may have ordinances requiring compliance with the State Rehabilitation Program or have a local Rehabilitation Program.

	<p>Primary Inspection Agency (PIPA) Program</p> <p>Regulate the manufacturing of HUD manufactured homes, and residential and commercial factory-built buildings. In agreement with HUD to regulate the manufacturing of HUD manufactured homes on their behalf. Inspectors inspect the construction of HUD manufactured homes to Design Inspection Primary Inspection Agency approved plans and per HUD 24 CFR, Part 3280 Manufactured Home Construction and Safety Standards.</p> <p>HUD Label Verification and Accountability</p> <p>Verification may be necessary for the sell, purchase, movement, installation, demolition, or structural remodeling. HUD manufactured homes which are being demolished, being changed for use other than a single family residence, or being remodeled to compromise the structural integrity of the homes no longer comply with HUD 24 CFR Part 3280 Manufactured Home Construction and Safety Standards, and must have HUD labels removed (if available) and mailed to the state with a letter explaining the circumstance for removal. State will report HUD label removal to HUD. Removal of HUD labels occurs on a case-by-case basis, contact office before proceeding.</p> <p>Intergovernmental Agreements (IGA) Program</p> <p>Authority to enter into Intergovernmental Agreements with county and local jurisdictions for the permitting and installation inspection of pre-1976 mobile homes, HUD manufactured homes, and residential and commercial factory-built buildings. Locals may issue installation permits and conduct installation inspections on behalf of the state, according to state approved installation/flood plain/attached accessory structure plans.</p>
AZ Housing Alliance	<p>Technical Assistance/Training</p> <p>Arizona Housing Alliance is a statewide affordable housing coalition. Comprised of 150+ members which are individuals, business and organizations that create affordable housing. AZ Housing Alliance offers training and advocacy for their members - similar to operating like a trade association. The AZ Housing Alliance may be able to help recovery efforts by linking DEMA to a member organization that provides housing in a specific area that was hit by a disaster.</p>
AZ Southern Baptist Disaster Relief	<p>Mass Care, Feeding, Debris, Counseling Services, Rebuilding</p> <p>Provides disaster response including: mobile feeding trailer; mobile shower trailer; storm recovery equipment trailer; mud-out & chain-saw crews; mobile command center; chaplains for disaster counseling services; and outreach services.</p>
Brethren Disaster Ministries	<p>Home Repairs</p> <p>Provide emergency childcare, trained volunteers for childcare and clean-up/home repairs.</p>
Lutheran Social Services of the Southwest	<p>Long-Term Recovery Assistance</p> <p>Cash, grants, and loans; personal inquiries; unmet needs assessment; case management, adult home care services, adult day-care, refugee resettlement, job assistance, food banks, shelter services for single homeless women.</p>

Mennonite Disaster Services	Rebuild/Repair Housing Respond, repair and rebuild those affected by disaster.
The Salvation Army (SA)	Cleanup/Reconstruction/Feeding/Donations Management Mass care feeding and hydration service from fixed or mobile feeding operations; mass care shelter management at limited locations; Aidmatrix administrator and recipient organization; donations management including in-kind goods collection, sorting, storage, transportation and distribution; emotional and spiritual care services; disaster survivor assistance for short term unmet needs including food clothing, household goods and financial assistance; long term recovery assistance for unmet needs; and communication support with amateur radio base/portable units.
World Renew	Disaster Response Services Untrained volunteers; clean-up/home repairs; long-term rebuilding and repair of disaster damaged homes; building trades/professionals; case management and advocacy; needs assessment; organizational capacity building.

INTRODUCTION

Purpose

Recovery Support Function (RSF) 5 - Infrastructure Systems facilitates the integration of the capabilities of state and federal government and voluntary agencies in support of local, county, and tribal governments and other infrastructure owners and operators efforts to achieve recovery goals relating to the state's multiple infrastructure systems.

Scope

Arizonans rely heavily on built infrastructure during the course of their everyday lives. Second only to impact to homes, damaged or destroyed infrastructure can create the greatest impact for residents following a disaster. Roads, utilities, water systems, and government facilities are just some of the infrastructure systems that routinely are impacted by disasters within the state.

The State of Arizona administers the GEF as a way to help local jurisdictions recover their infrastructure. Beyond this, FEMA administers the Public Assistance Program that can provide additional financial and technical support. Even with these two programs in place, there may be incidents within the state that require additional assistance outside their scope or eligibility. It is vital to the community that key services be restored to allow residents to reach their new normal in the most expeditious way possible. The focus of the Infrastructure RSF is to bring together

experts and agencies that can support the recovery of vital infrastructure when the GEF and the FEMA PA Program are insufficient or not applicable.

Therefore, the scope of this RSF includes, but is not limited to, the following infrastructure sectors and subsectors:

- Energy
- Water
- Dams
- Communications
- Transportation systems
- Agriculture (food production and delivery)
- Government facilities
- Utilities
- Sanitation
- Engineering
- Flood control
- Other systems that directly support the physical infrastructure of communities
- Facilities for essential services (public safety, emergency services, public recreation)

When coupled with informed decisions by county, local, and tribal officials, this RSF provides the support system necessary for the restoration of a community's infrastructure.

INFRASTRUCTURE SYSTEMS RECOVERY PROGRAMS

Agencies	Programs
AZ Department of Administration (ADOA)	Fleet Management Office Manages approx. 1,800 vehicles leased to state agencies. Vehicle maintenance performed by ADOT and regular preventative maintenance schedules are kept. Material Management-Surplus Property Distribution of surplus materials which are usable and necessary for public purposes to a state governmental unit or a political subdivision. Building Management Manages the ADOA Building System and private space leasing program. Also provides custodial, grounds, and physical security, and repair and maintenance on ADOA's owned or leased/managed buildings.
AZ Department of Emergency and Military Affairs (DEMA) - Emergency Management	Hazard Mitigation Grant Program (HMGP) Post-disaster mitigation program; 75% fed 25% non-fed match requirement; eligible mitigation projects include minor flood control, property acquisitions/relocations, structural elevation, and wildfire mitigation.

	<p>Flood Mitigation Assistance (FMA) Flood only projects; 75% fed 25% non-fed match requirement; eligible activities include acquisition/relocation, elevation, dry flood proofing of non-residential structures, and minor flood control projects.</p> <p>Pre-Disaster Mitigation Plan (PDM) All-hazard; 75% fed 25% non-fed match requirement; eligible activities include acquisition/relocation, elevation, dry flood proofing of non-residential structures, and minor flood control projects.</p>
AZ Department of Forestry and Fire Management (DFFM)	<p>Firewise Communities USA The program's goal is to encourage and acknowledge action that minimizes the potential losses from wildfires. It also educates communities to prepare for fires before they occur.</p>
AZ Department of Transportation (ADOT)	<p>Federal Highway Administration (FHWA) Emergency Relief Program Designed to assist state, county, city and tribal entities in dealing with emergency situations due mainly to natural disasters such as flooding, fire, earthquake, etc, causing damage to the roadway system.</p> <p>Technical Assistance - Bridges Design, inspect, maintain and load rate all state and local bridges and culverts meeting FHWA National Bridge Inspection (NBI) Standards.</p> <p>Feature Inventory System: Data Digital collection of inventoried features ranging from drainage structures to physical location of a sign post or guardrail segment. All data is georeferenced to within the right-of-way and can provide a detailed as-built view of the affected highway segment.</p> <p>Environmental Assessment Assistance Natural and cultural resource evaluation and impact assessment.</p>
AZ Department of Water Resources (ADWR) - (NFIP)	<p>Floodplain Management: National Flood Insurance Program (NFIP) Communities participating in the NFIP adopt and enforce floodplain management ordinances to reduce future flood damage. According to FEMA, flood damage is reduced by nearly \$1 billion a year, nationally, through communities implementing sound floodplain management requirements and property owners purchasing flood insurance.</p> <p>Dam Safety State law assigns the responsibility for supervision of the safety of dams to ADWR. ADWR can provide the locations of state-regulated dams and associated information (e.g. owner contact, capacity, age, construction, condition), and technical assistance with respect to; emergency or unusual conditions at dams, operations, and necessary dam repairs.</p> <p>Well Drilling Prior to drilling a new well, or deepening or modifying an existing well, a Notice of Intent to Drill must be filed with ADWR. ADWR can provide the locations of registered wells (municipal, domestic, agricultural, industrial) and associated data (well depth, casing diameter, owner information) and expedite the application process for new well drilling permits.</p>

Department of the Interior (DOI) - National Interagency Burned Area Emergency Response (BAER)	Post-Wildfire Impact The DOI maintains two standing National Interagency BAER teams to assist field units develop plans to address emergency stabilization issues on wildfire where post-wildfire impacts pose immediate and significant threats to human life and property. Typical actions a BAER team considers include ground cover replacement, installation of water control devices such as water bars, area closures, weed treatment and placing warning signage. The team does not work on replacing losses due to fire.
Federal Highway Administration (FHWA)	Federal Highway Administration (FHWA) Emergency Relief (ER) Program State and local governments may work directly with the FHWA if no state routes or rights of way are involved.
U.S. Department of Agriculture (USDA) - Natural Resources Conservation Service (NRCS)	Emergency Watershed Protection Program (EWP) Through the EWP, the U.S. NRCS can help communities address watershed impairments that pose imminent threats to lives and property. Areas that suffered damage due to flood, fire, drought, windstorm, or other natural occurrence, NRCS may pay up to 75% of the construction costs of emergency measures, 90% for projects within limited-resource areas as identified by the U.S. Census. EWP program addresses watershed impairments, which may include: debris clogged stream channels; undermined and unstable stream banks; jeopardized water control structures and public infrastructures; wind-borne debris removal; and damaged upland sites stripped of protective vegetation by fire or drought.

INTRODUCTION

Purpose

Recovery Support Function (RSF) 6 - Natural and Cultural Resources integrates state, federal and voluntary agency assets and capabilities to help county, local, and tribal governments and communities address long-term environmental and cultural resource recovery needs.

Scope

State natural and cultural resources are vulnerable during disasters. Disasters often take an extreme toll on the natural environment such as, destroying trees and vegetation, contaminating waterways, and polluting the air. Additionally, culturally sensitive and historic properties are also extremely vulnerable to disasters and many of these sites are irreplaceable. The purpose of RSF 6 is to utilize expertise in the field to minimize the impact of disasters and proactively and appropriately restore these important resources.

Besides cultural and historic significance, the destruction of natural resources can have long lasting impacts on the communities and residents who rely on them. If these resources are ignored, the secondary effects of disasters can appear months or years later and continue to impact communities while other segments of the community have recovered.

Arizona also possesses cultural resources that cannot be found anywhere else in the world. From tribal to territorial days, many cultural sites within the state date back hundreds, even thousands

of years. It is imperative that these sites be identified prior to a disaster and closely monitored when events are occurring that may threaten the site. During an event, experts should be consulted to determine the best way to mitigate impacts to these resources and what is the best and most culturally sensitive way to properly restore and preserve these sites for the future.

Should a natural or cultural resource be impacted by a disaster, an item that may be required prior to reconstruction and/or clean-up efforts is an Environmental Historic Preservation Review (EHP). The purpose of an EHP is to verify project proposals are in compliance with federal environmental/historic preservation laws and Executive Orders. It is important to note that disasters and emergencies do not exempt projects from EHP review and responsibilities.

Because there can be so many components to the restoration and recovery of a natural or cultural resource, it is important to consult experts in many fields. This makes RSF 6 an extremely valuable forum and resource for protecting and conserving these resources.

NATURAL AND CULTURAL RESOURCES RECOVERY PROGRAMS

Agencies	Programs
AZ Department of Environmental Quality (ADEQ)	<p>Community Liaison Program</p> <p>Placed key employees in the communities they serve, so they can have frequent and direct contact with agency customers. Community Liaisons are able to facilitate communication between ADEQ and the impacted communities. They are available to attend recovery meetings, report to management on local concerns and needs, disseminate vital information to residents, address questions from the public, conduct smoke monitoring, and serve as single ADEQ points-of-contact for local recovery agencies.</p> <p>Emergency Response Unit</p> <p>ADEQ Emergency Response Unit is on call 24/7, to ensure that all environmental emergencies are promptly addressed. The Unit works to minimize injuries, deaths, property damage and threats to human health and the environment from chemical spills, fires, explosions and other pollutant releases by stabilizing emergency incidents through its role as SOSC and as the environmental support agency of the SERRP.</p>
AZ Department of Environmental Quality (ADEQ) - Office of Border Environmental Policy	<p>Technical Assistance: Wastewater/Communication/Mapping</p> <p>The Office of Border Environmental Protection has strong ties with public and private stakeholders south of the border; can facilitate communication and coordination as needed in response to a catastrophe in the border region; provide communication support to Spanish speaking stakeholders; supports border communities with associated products in the context of catastrophic failure of bi-national wastewater infrastructure. The office has staff members with wastewater treatment plant operator experience and certification and can provide technical assistance; versed in geographic information systems, geographic analysis, and map preparation. As needed, the staff can access public and DEMA-sourced data to produce maps communicating hazard risks following a catastrophic incident, and national elevation dataset freely available from the U.S. Geological Survey to develop local surface water flow regimes that may be impacted by hazardous chemical spills and/or other catastrophes. Using data available</p>

	<p>from the ADEQ and the ADWR, maps can be developed showing critical water and wastewater infrastructure and water supply wells in the vicinity of a catastrophic incident. Associated risks can be mapped and communicated to the public and response depending on the event.</p>
AZ Department of Environmental Quality (ADEQ) - Water Quality Division (WQD)	<p>Grants: Water Quality Improvement Program (WQIP) Allocates money from the EPA for implementation of non-point source management and watershed protection. Grant funds from the EPA are administered by ADEQ who uses these federal funds to implement on-the-ground water quality improvement projects to control non-point source pollution.</p> <p>Inspections: ER of Regulated Drinking Water Systems and Waste Water Discharges Prioritize inspections/facility file and database reviews and assign staff to inspections.</p> <p>Water Permits and Approvals Facilitate the protection of drinking water source waters through oversight of wellhead protection, public water system capacity development and the certification of public water system and wastewater system operators; to provide plan review and approval of public water systems and wastewater facilities; and to issue permits for facilities that discharge pollutants, for reclaimed water and to register drywells. Depending on the event, permit review and approval support would include but not be limited to: water system engineering design and maintenance guidance; regulatory guidance; data retrievals for certified operator and facility related information; wastewater and drinking water operational and treatment guidance.</p> <p>Water Quality Monitoring: Impaired or Impacted Waters The WQD conducts surface and groundwater monitoring throughout the state to determine ambient water quality and to assess whether the water body is attaining its designated uses (e.g., recreation, domestic water source, aquatic & wildlife). The agency works with federal and state agencies to collect and assess data collected by those agencies. The surface water program characterizes water quality throughout the 10 surface watersheds over a five-year cycle on monitoring.</p>
AZ Department of Environmental Quality (ADEQ) - Waste Programs Division	<p>Technical Assistance: Waste Inspections and Compliance Provide assistance with the proper handling, storage, treatment and disposal of solid and hazardous wastes and the proper operation and maintenance of underground storage tank systems.</p> <p>Technical Assistance: Underground Storage Tanks Investigates and coordinates efforts to clean up leaking underground storage tanks once a release has occurred.</p> <p>Technical Assistance/Permitting: landfills; bio-hazardous medical waste facilities; hazardous waste Provides technical review and permits to landfills; bio-hazardous medical waste facilities; hazardous waste treatment, storage, disposal facilities.</p>

AZ Department of Forestry and Fire Management (DFFM)	<p>Technical Assistance: Post Fire</p> <p>Technical expertise in assessing fire damage and impacts to caring capacity of grazing permitted land and timber stands.</p> <p>Grants: Volunteer Fire Assistance</p> <p>Provides financial assistance to train organize, and equip fire departments in rural areas and rural communities to prevent and suppress fires. A rural community is defined as having 10,000 or less population.</p> <p>Grants: Western Wildland Urban Interface</p> <p>Reduce hazardous fuels/restore fire adapted ecosystems; improve prevention and education; community wildfire protection planning.</p>
AZ Department of Transportation (ADOT) - Environmental Services	<p>Archaeological and Cultural Resource Technical Assistance and Data</p> <p>Archaeological and Cultural Resource staff is located in Phoenix and Flagstaff and Tucson. Staff meeting Secretary of Interior Professional standards criteria (as cited in Code of Federal Regulations). Data management of inventoried sites within ADOT jurisdiction discovered during project-by-project investigations.</p> <p>Natural Resources</p> <p>Four regional groups of Natural Resource Professionals and Technicians (Flagstaff, Prescott Valley, Phoenix, Tucson). Applications of herbicides, pesticides, physical vegetation management, and preventative management strategies. Equipment and expertise focused on chemical applications via spray trucks, hand applications. Experience with fire as a management tool for fuel reduction projects and brush disposal.</p> <p>District Environmental Coordinators: Technical Assistance</p> <p>Environmental Coordinators established in each of the nine engineering districts throughout the state (Kingman, Flagstaff, Holbrook, Prescott, Globe, Phoenix, Yuma, Tucson, Safford). Staff established relationships with local, state, tribal and federal partners, regulators, and officials as they relate to environmental resource management and regulations.</p> <p>Feature Inventory System: Data</p> <p>Digital collection of inventoried features ranging from wildlife crossing structures to physical location of a sign post or guard rail segment. All data is geo-referenced within the right-of-way and can provide a detailed as-built view of the affected highway segment.</p> <p>On-call Contracting of Natural Resource and Environmentally Required permits</p> <p>Established on-call professional services contract meeting state or federal requirements (including NEPA Compliant activities) and other research topics to support overall environmental clearance process. May be pursued in conjunction with FHWA or FEMA Emergency Relief funding.</p> <p>Compliance Evaluation Program</p> <p>Three regionally-assigned Compliance Evaluators with field equipment necessary to ensure compliance with permit requirements, contract stipulations and mitigation measures associated with environmental conditions.</p>

AZ Department of Water Resources (ADWR)	<p>Groundwater Rights and Withdrawal Permits The program issues groundwater withdrawal permits, processes conveyances of groundwater rights and manages and maintains a registry of groundwater rights information.</p> <p>Water Exchanges and Permitting ADWR issues, renews and modifies water exchange permits.</p> <p>Dam Safety State law assigns the responsibility for supervision of the safety of dams to ADWR. ADWR can provide the locations of state-regulated dams and associated information (e.g. owner contact, capacity, age, construction, condition), and technical assistance with respect to; emergency or unusual conditions at dams, operations, and necessary dam repairs.</p> <p>Well Drilling Prior to drilling a new well, or deepening or modifying an existing well, a Notice of Intent to Drill must be filed with ADWR. ADWR can provide the locations of registered wells (municipal, domestic, agricultural, industrial) and associated data (well depth, casing diameter, owner information) and expedite the application process for new well drilling permits.</p> <p>Technical Assistance in Floodplain Management ADWR assists communities that participate in the National Flood Insurance Program (NFIP), sets state standards for floodplain management; and works with local, state, and federal entities during times of flood emergencies. ADWR can provide information on FEMA floodplains and high flood hazard areas.</p> <p>Surface Water Permitting State law provides a permit must be obtained in order to appropriate surface water. ADWR processes applications related to existing rights for changes in type of use and severance & transfers from one place of use to another. ADWR can provide information on surface water rights.</p> <p>Assured & Adequate Water Supply Designation An assured water supply determination is required to sell lots within a subdivision that is located within Active Management Areas (AMA). Some cities, towns, private water companies and water districts have obtained a Designation of Assured Water Supply for their water service area.</p> <p>Ground Water Recharge Provisions for recharge programs included in the Groundwater Code allow injection of surface water or treated wastewater into an aquifer for storage. Through recharge programs, surplus renewable water supplies can be stored for use in the future. ADWR tracks long-term storage credits and permits recovery wells.</p> <p>Technical Assistance: Flood Warning ADWR coordinates with local communities, state and federal agencies for the planning, design, construction and operation of flood warning systems, operates and maintains field equipment, hosts the statewide flood warning website. ADWR frequently installs equipment in burn areas to improve warning due to the increased post-fire flood risk.</p>
---	--

AZ Game and Fish Department (AZGFD)	<p>Law Enforcement Support and Fixed Winged Aircraft Support AZGFD, as State certified Peace Officers that may be called to assist with law enforcement efforts relating to wildlife, OHV and watercraft. AZGFD also provides fixed wing aircraft to monitor and survey wildlife and provide support for wildlife related law enforcement activities.</p> <p>Vehicle Resources/Transportation AZGFD has a wide variety of vehicle resources including trucks, utility trailers, ATVs / UTVs and watercraft.</p> <p>Wildlife Habitat Restoration This program can provide technical advice and guidance relating to the effects of, and recovery efforts for, wildlife habitat restoration.</p> <p>Heritage Data Management System Provides information on special status wildlife species for environmental compliance during emergency recovery operations.</p> <p>Technical Assistance: Water Quality Lab Support AZGFD collects and samples water. The main focus would be to perform diagnostic work to investigate, and/or prevent, fish kills or potential issues related to aquatic wildlife.</p> <p>Technical Assistance: Wildlife Biology AZGFD has Wildlife Biologists on staff to provide technical support and assessments for wildlife related natural resource issues.</p> <p>Technical Assistance: Archaeological Support AGFD has certified Archaeologists on staff they may be able to provide on the ground and technical support for cultural related events.</p> <p>Technical Assistance: Wildlife Capture and Relocation Support AZGFD can provide technical support for assessments to determine the impacts of a disaster recovery operation to wildlife populations, migration patterns and habitats. Under this program we can provide on the ground support for capture and relocation of wildlife in impacted areas.</p> <p>Heavy Equipment Support Heavy equipment and operators for use on wildlife recovery projects.</p>
U.S. Department of Agriculture <ul style="list-style-type: none"> - Farms Services Agency (FSA) 	<p>Supplemental Revenue Assistance Payments (SURE) Authorized by the 2008 Farm Bill to provide assistance to producers suffering crop losses due to natural disasters. SURE is available for crop losses due to natural disasters occurring through Sept. 30, 2011.</p> <p>Emergency Assistance for Livestock, Honey Bees, & Farm-Raised Fish (ELAP) Provides emergency relief to cover losses from disaster such as adverse weather not adequately covered by any other disaster program. Sections 12033 & 15101 of the 2008 Farm Bill direct the use of up to \$50/yr from the Trust Fund to provide emergency relief to eligible producers of livestock, honeybees, and farm-raised fish. The emergency relief is to provide financial assistance to reduce the amount of losses due to disease, adverse weather, or other conditions, such as blizzards and wildfires. ELAP covers losses that are not covered under LFP, LIP, or SURE.</p>

	<p>Tree Assistance Program (TAP)</p> <p>Provides financial assistance to replant or rehabilitate eligible trees, bushes and vines damaged by natural disasters occurring on or after Jan. 1, 2008, and before Oct. 1, 2011. TAP was authorized by the 2008 Farm Bill and is funded through the Agricultural Disaster Relief Trust Fund.</p> <p>Emergency Forest Restoration Program (EFRP)</p> <p>Provides payments to carry out emergency measures to restore land damaged by natural disaster. Funding for EFRP is appropriated by Congress. EFRP is administered by FSA's state and county committees and offices. Subject to availability of funds, locally-elected county committees are authorized to implement EFRP for all disasters except drought and insect infestations, which are authorized at the FSA national office.</p> <p>Noninsured Crop Disaster Assistance Program (NAP)</p> <p>Provides financial assistance to producers of non-insurable crops when low yields, loss of inventory, or prevented planting occurs due to natural disasters.</p> <p>Emergency Farm Loans</p> <p>Provides Emergency loans. Emergency loan that may be used to restore or replace essential property, pay all or part of production costs associated with the disaster year, pay essential family living expenses reorganize the farming operation, or refinance certain debts, excluding real estate. The maximum loan amount is \$500,000.</p> <p>Livestock Indemnity Program (LIP)</p> <p>The "Food, Conservation, and Energy Act of 2008" authorized the LIP to provide benefits to livestock producers for livestock deaths in excess of normal mortality caused by adverse weather that occurred on or after Jan. 1, 2008, and before Oct. 1, 2011, including losses due to hurricanes, floods, blizzards, disease, wildfires, and extreme temperatures. The livestock death losses must also have occurred in the calendar year for which benefits are being requested. Under the current LIP, an owner or contract grower's livestock payments will be based on individual producers' losses.</p> <p>Livestock Forage Disaster Program (LFP)</p> <p>Authorized by the 2008 Farm Bill, the LFP provides compensation for suffered grazing losses for covered livestock on land that is native or improved pastureland with permanent vegetative cover or is planted specifically for grazing. The grazing losses must be due to a qualifying drought condition during the normal grazing period for the county. LFP provides compensation to eligible livestock producers that have suffered grazing losses on rangeland managed by a federal agency if the eligible livestock producer is prohibited by the federal agency from grazing the normal permitted livestock on the managed rangeland due to a qualifying fire.</p>

EMERGENCY SUPPORT FUNCTION 15 – EXTERNAL AFFAIRS ANNEX

Primary Agency

AZ Department of Emergency & Military Affairs (DEMA)

Support Agencies

All applicable agency PIOs

**DEMA is responsible for coordination of ESF 15 planning updates and serves as the interim Primary Agency until the lead agency (e.g. public health, public safety, fire management, etc.) for the incident (e.g. pandemic, terrorism, wildfire, etc.) can assume Primary Agency duties.*

INTRODUCTION

Purpose

Emergency Support Function (ESF) 15 – External Affairs ensures that sufficient state assets are available to provide accurate, coordinated, and timely public information to target audiences, including at-risk, in the Whole Community.

Scope

The identity of the Primary Agency depends on the type of emergency and the public information capabilities of lead agency (e.g. public health, public safety, fire management, etc.) for that type of incident (e.g. pandemic, terrorism, wildfire, etc.).

ESF 15 coordinates state actions to provide the required external affairs support to local, county, tribal, state, and federal agencies.

ESF 15 applies to all state departments and agencies that may require public information support and/or whose public information function may be shorthanded and/or deployed during an incident of statewide or national significance.

The provisions of this Annex apply to all emergencies/disasters declared by the Governor of the State of Arizona or emergencies/disasters that necessitate significant interagency coordination.

ROLES AND RESPONSIBILITIES

Primary Agency	Actions
Dependent on the type of emergency and the capabilities of lead agency for that incident type	<ul style="list-style-type: none">Coordinate external affairs when requested by the Governor's Communication Office or when your agency is the lead for response.Coordinate strategic communication plans, policy issues and external affairs operations with the Governor's Communication Office.Serve as a member of the Policy Section at the SEOC when activated.Coordinate news conferences and public information about disaster conditions, response operations and disaster assistance programs.Conduct public information, media relations and community education programs.

	<ul style="list-style-type: none">Coordinate with other state agencies and external partners (local, federal, tribal, voluntary, etc.) regarding emergency response activities of their agencies.
Support Agencies	Actions
All State Agencies	<ul style="list-style-type: none">Share prevention, preparedness, response and recovery/mitigation public information with the Primary Agency and the Arizona Emergency Information Network, AzEIN.gov.Depending on the incident, all state departments and agencies may be tasked to provide appropriate external affairs support for ESF 15 as required and available.Participate in the JIS to ensure consistent, coordinated messaging.
Local/Tribal, Volunteer and Private Sector	<ul style="list-style-type: none">Participate in the JIS to ensure consistent, coordinated messaging.
